

# Oregon's COVID-19 Weekly Update 1/25/2023

Updated weekly on Wednesdays. Data Current as of 12:01am 1/25/2023

## CASES — Statewide

**New cases**  
**2,027**  
Weekly: Sun - Sat

**Total cases**  
**948,901**  
Cumulative | Source: Opera

**County**  
 Statewide

**New cases**  
 New cases  
 7-day average

**Cases by date reported**

**Newly identified deaths with COVID-19**  
**23**  
Weekly: Wed - Tues

**Total deaths**  
**9,164**  
Cumulative | Source: Opera

**Data on deaths with COVID-19**

## HEALTH CARE — Statewide

**COVID-19 positive patients**

**Hospitalized**  
**222**

**in ICU beds**  
**27**  
Day of report | Source: HOSCAP

**HOSCAP dashboard**

**Emergency department visits for COVID-19-like illness (CLI)**

**2.5%**  
Weekly: Sun - Sat | Source: Oregon ESSENCE

**%CLI data**

## VACCINATION — Statewide

**Vaccination coverage, statewide people ages 18+**

**One dose**  
**86.5%**

**Bivalent booster**  
**23.3%**  
Cumulative, updated monthly | Source: ALERT IIS

**Vaccination dashboard**

## TESTING — Statewide

**Test positivity**  
**7.6%**  
Weekly: Sun - Sat

**Tests reported**  
**23,578**  
Weekly: Sun - Sat | Source: ELR and OCRP

**Testing data**

## SEQUENCING — Statewide

**Variants of Concern**

**Omicron (BQ.1.1)**  
**50.0%**

**Omicron (BQ.1)**  
**25.0%**

**Omicron (BA.5)**  
**25.0%**  
Most recent week | Source: GISAID

**Lineage**

Data are provisional and subject to change.  
 Opera is Oregon's COVID-19 disease surveillance system. Total cases include both presumptive and confirmed cases. Presumptive cases are people without a positive diagnostic test who have COVID-19-like symptoms and had close contact with a laboratory confirmed case.  
 Oregon's Hospital Capacity Web System (HOSCAP) data are from the most recent report from the hospitals, as of 9:00am. Every hospital in Oregon is asked to submit data twice daily.  
 Oregon ESSENCE, Electronic Surveillance System for the Early Notification of Community-based Epidemics, allows for public health to monitor what is happening in emergency departments across the state. Oregon ESSENCE receives daily reports of emergency department visits from all 60 non-federal hospitals in Oregon.  
 Vaccination data are from the Oregon ALERT Immunization Information System (IIS). COVID-19 vaccination providers must report administration data to ALERT IIS no later than 72 hours after administration.  
 Testing data are from electronic laboratory reports (ELR) and the Oregon COVID-19 Reporting Portal (OCRP). Tests are counted by the date received by public health. Counts reflect individual tests and not individual persons tested. Non-antibody and non-'info only' COVID results are deduplicated based on medical record number (MRN), accession number, facility and result date.  
 Variant data are from the open-source sequencing data platform GISAID and are updated weekly on Wednesdays. There is a lag of approximately two weeks between when a sample is collected, sequenced and then reported by GISAID; this chart reflects that time-lag. This week's Omicron BQ.1.1, BQ.1, and BA.5 estimates of 50%, 25%, and 25%, respectively, are higher than expected due to a small number of specimens (n=4) available in GISAID during the most recent week. OHA does not believe this estimate to be accurate.

## Oregon's COVID-19 Weekly Update 1/25/2023

County	COVID-19 cases			Deaths with COVID-19		COVID-19 tests
	New cases (Weekly, Sun-Sat)	Rate per 100K (Weekly, Sun-Sat)	Total cases	Newly identified (Weekly, Wed-Tues)	Total Deaths	Test Positivity (Weekly, Sun-Sat)
