

TRASK RIVER WATERSHED ANALYSIS

FINAL REPORT

AUGUST 2003

A Report by

**E&S Environmental Chemistry, Inc.
P.O. Box 609
Corvallis, OR 97339**

**Kai U. Snyder
Timothy J. Sullivan
Deian L. Moore
Richard B. Raymond
Erin H. Gilbert**

Submitted to

**Oregon Department of Forestry
and
U.S. Department of Interior, Bureau of Land Management**

John Hawksworth, Project Manager

Table of Contents

LIST OF FIGURES	x
LIST OF TABLES	xii
ACKNOWLEDGMENTS	xiv
CHAPTER 1. CHARACTERIZATION	1-1
1.1 Physical	1-1
1.1.1 Size and Setting	1-1
1.1.2 Topography	1-1
1.1.3 Ecoregions	1-3
1.1.4 Geology and Geomorphology	1-3
1.1.5 Soils	1-5
1.1.6 Erosion and Sediment	1-5
1.1.7 Climate and Precipitation	1-6
1.1.8 Hydrology	1-6
1.1.9 Water Quality	1-7
1.1.10 Stream Channel	1-8
1.2 Biological	1-8
1.2.1 Vegetation Characteristics	1-8
1.2.2 Fish and Wildlife Habitat	1-10
1.2.2.1 Aquatic	1-10
1.2.2.2 Terrestrial	1-11
1.3 Social	1-13
1.3.1 Population	1-13
1.3.2 Ownership	1-14
1.3.3 Land Use	1-14
1.3.4 Human Uses	1-15
1.3.4.1 Forestry	1-15
1.3.4.2 Agriculture	1-16
1.3.4.3 Urban and Rural Residential	1-16
1.3.4.4 Recreation	1-16
CHAPTER 2. REFERENCE CONDITIONS	2-1
2.1 Introduction	2-1
2.2 Aquatic	2-1
2.2.1 Hydrology and Water Quantity	2-1
2.2.2 Erosion	2-3
2.2.3 Water Quality	2-4
2.2.4 Stream Channel	2-4
2.2.5 Aquatic Species and Habitat	2-5
2.3 Terrestrial	2-7
2.3.1 Landscape Vegetation Pattern	2-7
2.3.1.1 North Coast Region	2-7
2.3.1.2 Trask Watershed	2-7
2.3.1.3 Sensitive Plant Species	2-8

2.3.2	Wildlife Species and Habitat	2-8
2.3.2.1	Terrestrial Habitat	2-8
2.3.2.2	Riparian, Wetland, and Estuarine Habitats	2-9
2.4	Social	2-10
2.4.1	Historical Changes in Landscape Pattern	2-10
2.4.2	Human Uses Prior to European Settlement	2-12
2.4.3	European Settlement.....	2-13
2.4.3.1	Agricultural Operations.....	2-14
2.4.3.2	Timber Operations.....	2-15
2.4.3.3	Road Building	2-18
2.4.3.4	Wetland Conversion.....	2-18
2.4.3.5	Channel Modification.....	2-20
2.4.3.6	Expansion of Urban and Rural Residential Land Uses	2-21
2.4.4	Effects of Native Americans and European Settlers Upon Fire Regimes	2-22
CHAPTER 3. CURRENT CONDITIONS		3-1
3.1	Aquatic Ecosystems.....	3-1
3.1.1	Hydrologic Characterization.....	3-1
3.1.1.1	Flooding	3-3
3.1.1.2	Groundwater.....	3-4
3.1.1.3	Human Impacts on Hydrology	3-4
3.1.2	Water Quantity.....	3-6
3.1.3	Stream Channel.....	3-9
3.1.3.1	Stream Morphology and Sediment Transport Processes.....	3-9
3.1.3.2	Effects of Human Influences Upon Stream Morphology.....	3-13
3.1.3.3	Stream Enhancement Projects.....	3-14
3.1.4	Erosion and Sediment.....	3-15
3.1.4.1	Overview of Erosion and Sediment Processes.....	3-15
3.1.4.2	Mass-Wasting and Slope Stability in The Trask River Watershed.....	3-16
3.1.4.3	Human Impacts on Erosional Processes and Sediment Production	3-17
3.1.4.4	Effects of Sedimentation on Barney Reservoir	3-17
3.1.5	Water Quality.....	3-18
3.1.5.1	Streams on The 1998 ODEQ 303(D) List.....	3-18
3.1.5.2	Water Quality Data and Evaluation Criteria	3-19
3.1.5.3	Water Quality Parameters	3-25
3.1.5.4	Summary of Water Quality Concerns	3-33
3.1.5.5	Water Quality Trends.....	3-34
3.1.6	Aquatic Species and Habitat.....	3-36
3.1.6.1	Fish and Fish Habitat.....	3-36
3.1.6.2	Amphibians	3-47
3.1.6.3	Reptiles.....	3-48
3.1.6.4	Wetland Species and Habitat.....	3-48
3.2	Terrestrial Ecosystems.....	3-50
3.2.1	Roads	3-50

3.2.1.1	Road Density and Hillslope Position	3-50
3.2.1.2	Condition of Roads.....	3-50
3.2.1.3	High Risk Areas For Road-Related Slope Failures.....	3-52
3.2.1.4	Stream Crossings.....	3-53
3.2.1.5	Access.....	3-53
3.2.2	Terrestrial Wildlife Species and Habitat.....	3-55
3.2.2.1	Mammals.....	3-55
3.2.2.2	Birds	3-57
3.2.2.3	Abundance and Condition of Habitat.....	3-59
3.2.2.4	ODF Management of Sensitive Species.....	3-60
3.2.2.5	BLM Management of Sensitive Species	3-60
3.2.3	Vegetation Species and Habitat.....	3-61
3.2.3.1	Landscape Pattern of Vegetation.....	3-61
3.2.3.2	Forest Management	3-63
3.2.3.3	Exotic/Noxious Plants	3-65
3.2.3.4	Rare Plants.....	3-66
3.2.3.5	Riparian Vegetation.....	3-67
3.3	Social	3-68
3.3.1	Recreational Opportunities	3-68
3.3.2	Timber Harvest.....	3-68
CHAPTER 4. DISCUSSION.....		4-1
4.1	Aquatic	4-1
4.1.1	Hydrology and Water Quantity Issues.....	4-1
4.1.1.1	Management Effects on Hydrology	4-1
4.1.1.2	Water Rights Allocations	4-3
4.1.2	Stream Channel Issues.....	4-3
4.1.3	Erosion Issues	4-6
4.1.3.1	Changes in Erosional Processes	4-6
4.1.3.2	Management Impacts on Erosion.....	4-7
4.1.3.3	Potential Future Sources of Sediment	4-8
4.1.3.4	Priority Locations For Projects to Address Erosion Issues	4-8
4.1.4	Water Quality Issues.....	4-9
4.1.4.1	Temperature	4-11
4.1.4.2	Fecal Coliform Bacteria	4-22
4.1.4.3	Total Suspended Solids	4-23
4.1.4.4	Nutrients.....	4-25
4.1.4.5	Dissolved Oxygen	4-29
4.1.4.6	Management Effects on Water Quality	4-29
4.1.4.7	Forest Chemicals	4-30
4.1.4.8	Streams on The Oregon 303(D) Water Quality Limited List.....	4-30
4.1.4.9	Effects of Water Quality on Recreation	4-31
4.1.5	Aquatic Species and Habitat Issues	4-32
4.1.5.1	Aquatic Habitat	4-32
4.1.5.2	Fish.....	4-33
4.1.6	Wetlands: Management Impacts.....	4-36
4.1.6.1	Wetland Quantity and Quality.....	4-36

	4.1.6.2	Impacts of Wetland Changes Upon Species	4-37
4.2	Terrestrial	4-37
	4.2.1	Road-Related Issues.....	4-37
	4.2.1.1	Considerations Related to Road Design.....	4-38
	4.2.1.2	Siting of Roads.....	4-39
	4.2.1.3	Road Construction.....	4-39
	4.2.1.4	Ditches.....	4-40
	4.2.1.5	Road Closure.....	4-40
	4.2.2	Riparian Habitat: Management Impacts	4-41
	4.2.3	Wildlife Issues	4-42
	4.2.4	Vegetation Issues.....	4-42
	4.2.4.1	Potential Habitat Management Strategies	4-43
	4.2.4.2	Noxious and Exotic Plants	4-44
	4.2.4.3	Factors Affecting The Distribution of Protected Plant Species	4-45
	4.2.5	Forest Resources Issues.....	4-45
	4.2.5.1	Timber Harvesting.....	4-45
	4.2.5.2	Management of Snags and Down Wood.....	4-46
	4.2.5.3	Management of Laminated Root Rot, Swiss Needle Cast and Other Forest Pathogens	4-47
	4.2.5.4	Management of Hardwood Stands	4-48
4.3	Social	4-49
	4.3.1	Agriculture.....	4-49
	4.3.2	Rural Residential and Urban Uses.....	4-49
	4.3.3	Recreation.....	4-50
	4.3.4	Cultural Resources.....	4-50
4.4	Subwatershed Ranking		4-50
4.5	Data Gaps and Future Actions.....		4-52
	4.5.1	Data Gaps.....	4-52
	4.5.2	Future Actions	4-56
CHAPTER 5. RECOMMENDATIONS FOR ODF			5-1
5.1	General Approach.....		5-1
	5.1.1	Cooperation.....	5-1
	5.1.2	Strategic Approach to Addressing Aquatic/Riparian Issues.....	5-1
	5.1.3	Priorities.....	5-2
	5.1.4	Alternatives.....	5-2
5.2	Recommended Management Actions to Address Multiple Resource Concerns.....		5-2
5.3	Recommendations for Specific Resources		5-4
	5.3.1	Aquatic.....	5-4
	5.3.1.1	Erosion Issues.....	5-4
	5.3.1.2	Hydrology Issues.....	5-5
	5.3.1.3	Stream Channel Issues	5-5
	5.3.1.4	Water Quality Issues	5-6
	5.3.1.5	Aquatic Species and Habitat Issues.....	5-7
	5.3.2	Terrestrial.....	5-9
	5.3.2.1	Noxious/Exotic Plants	5-9
	5.3.2.2	Species Habitat Issues	5-9

5.3.2.3	Upland Forest	5-9
5.3.2.4	Riparian Zones	5-10
5.3.2.5	Insects and Disease.....	5-10
5.3.3	Social	5-10
5.3.3.1	Recreation.....	5-10
5.3.3.2	Road Related Issues	5-11
CHAPTER 6. RECOMMENDATIONS FOR BLM		6-1
6.1	Aquatic	6-1
6.1.1	Erosion.....	6-1
6.1.2	Stream Channel.....	6-1
6.1.3	Water Quality.....	6-2
6.1.4	Aquatic Species and Habitat.....	6-2
6.2	Terrestrial	6-3
6.2.1	Noxious/Exotic Plants	6-3
6.2.2	Species Habitat	6-3
6.2.3	Upland Forest.....	6-4
6.2.4	Riparian Zones.....	6-4
6.2.5	Insects and Disease	6-4
	6.2.5.1 Douglas-fir Beetle	6-4
	6.2.5.2 Phellinus weirrii	6-6
	6.2.5.3 Swiss Needle Cast	7-6
6.3	Social	6-7
6.3.1	Recreation	6-7
6.3.2	Road-Related Issues.....	6-7
CHAPTER 7. REFERENCES		7-1

PLATES

1. Elevation
2. Slope Steepness
3. Vegetation (CLAMS)
4. Land Use
5. Streambank Erosion
6. Coho and Chum Salmon Runs
7. Spring and Fall Chinook Runs
8. Summer and Winter Steelhead Runs
9. Habitat Surveyed
10. Road/Stream Crossings, Culverts, and Fish Passage Barriers
11. Riparian Vegetation
12. Road Segments near Streams and on Steep Slopes
13. 1998 ODEQ Water Temperatures Above the Salmonid Spawning and Rearing Standards

APPENDIX. Water Quality Restoration Plan for Federal Lands in the Trask River Watershed

List of Figures

1.1.	Location of Trask River watershed.....	1-2
1.2.	Average monthly precipitation near Tillamook.....	1-6
1.3.	Average monthly discharge near Tillamook.....	1-7
2.1.	Generalized flood history of Tillamook Basin rivers and coastline	2-2
2.2.	Historical floodplain forest in the Tillamook Basin	2-8
2.3.	Historical chronology of sawmills in Tillamook County	2-15
2.4.	Timber harvest data for Tillamook County, Oregon	2-17
2.5.	Stream crossing locations in the Tillamook Bay watershed	2-19
2.6.	Log drives in the Trask watershed, c. 1880-1910.....	2-21
2.7.	Population trends in Tillamook County.....	2-22
3.1.	Trask River discharge at the USGS gaging station for the period of record	3-2
3.2.	Number of sites sampled each year in the Trask River watershed from 1960 to 2002.....	3-22
3.3.	Number of days water quality data were collected each year in the Trask River watershed between 1960 and 2002	3-22
3.4.	Water temperature data measured at various sites in the Trask River watershed between 1960 and 2002	3-25
3.5.	Location of sampling sites for which one or more measured value exceeded the criterion for chlorophyll a, dissolved oxygen, pH, and temperature	3-26
3.6.	Continuous temperature data from the Trask River watershed: 7-day mean maximum daily temperature in 1998	3-27
3.7.	Dissolved oxygen measured at various sites in the Trask River watershed between 1960 and 2002	3-27
3.8.	pH measured at various sites in the Trask River watershed from 1960 through 2002.....	3-28
3.9.	Chlorophyll a values measured in water samples from the Trask River watershed from 1960 to 2002	3-28
3.10.	Total phosphorus values measured on water samples from the Trask River watershed in 1960 through 2002.....	3-29
3.11.	Nitrate-nitrogen (as N) values measured in water samples from the Trask River watershed from 1960 to 2002	3-29
3.12.	Coliform bacteria measured at various sites in the Trask River watershed between 1960 and 2002.....	3-30
3.13.	Location of sampling sites for which one or more measured value exceeded the criterion for nitrate, turbidity, total phosphorus and fecal coliform bacteria.....	3-31
3.14.	Discharge and measured values of fecal coliform bacteria in the lower Trask River throughout the period of monitoring from 1996 to 2002	3-32
3.15.	Turbidity measurements made on water samples from the Trask River watershed from 1960 to 2002.....	3-33
3.16.	Temperature trends analysis for available Trask River temperature data at all measured locations within the watershed, based on ODEQ data.....	3-35
3.17.	Residual plots for dissolved oxygen, FCB, nitrate-nitrogen, ortho phosphate-phosphorus, total phosphorus, and turbidity.....	3-36
3.18.	Wild coho spawner abundance in the Tillamook Basin, 1990-2001	3-38

3.19.	Results from chum salmon spawning surveys in the Tillamook Basin	3-39
3.20.	Resting hole counts for cutthroat trout.....	3-40
3.21.	Resting pool counts of summer steelhead trout in the Wilson and Trask Rivers	3-41
3.22.	Stream habitat conditions, by subwatershed.....	3-45
4.1.	Near stream disturbance zone (NSDZ) width for the lower 30 miles of the Trask River, as determined by ODEQ based on ground measurements and aerial photo interpretation.....	4-5
4.2.	Comparisons among the mainstem South Fork, North Fork, and Trask River subwatersheds with respect to effective shade, solar attenuation, and canopy cover..	4-14
4.3.	Comparison of 7-day maximum stream temperatures during the period May to October 1998 between the North Fork and South Fork Trask River (@ mouths).....	4-15
4.4.	Maximum daily temperature in the Trask River as a function of distance from headwaters.....	4-16
4.5.	Maximum daily stream temperature as a function of reach length averaged effective shade for rivers throughout the Tillamook Basin	4-17
4.6.	Model estimates and limited measured values of effective shade along the lower 30 miles of the Trask River.....	4-19
4.7.	Discharge and measured values of total suspended solids in the lower Trask River throughout the period of monitoring from 1996 to 2002	4-24
4.8.	Relationship between total suspended solids and discharge for the lower Trask River, 1996-2002	4-24
4.9.	Results of paired sample analyses for total phosphorus at the primary site and its respective forest/agriculture interface site for the four rivers in which both types of samples were collected	4-26
4.10.	Measured values of total phosphorus versus total suspended solids for the lower Trask River, 1996-2002	4-26
4.11.	Discharge and measured values of nitrate for the lower Trask River.....	4-27
4.12.	Results of paired sample analyses for total inorganic nitrogen at the primary site and its respective forest/agriculture interface site for the four Tillamook Basin rivers in which both types of samples were collected	4-27
4.13.	Concentration of inorganic N and river flow at the primary monitoring site on each river over a one-year period.....	4-28
4.14.	Salmonid use of the Trask River system.....	4-35

List of Tables

1.1.	Subwatershed designations	1-1
1.2.	Description of U.S. EPA level IV ecoregion classifications in the Trask watershed	1-4
1.3	Wildlife species of concern with breeding and/or foraging habitat within the Trask watershed	1-12
2.1	Timeline of significant events.....	2-11
2.2.	Sawlog production in Tillamook County, by species, 1925-1941	2-16
2.3.	Time periods for drainage district organization and acres drained.....	2-19
3.1.	Topographic features and precipitation amounts for the Trask River watershed based on GIS calculations.....	3-2
3.2.	In-stream water rights in the Trask River watershed, by Water Availability Basin and by subwatershed.....	3-7
3.3.	Consumptive water rights within the Trask River watershed.....	3-8
3.4.	Breakdown of consumptive water rights by subwatershed.....	3-8
3.5.	Water availability summary for Water Availability Basins within the Trask River watershed.	3-10
3.6.	Channel habitat types in the Trask River watershed, grouped by their sensitivity to watershed disturbance.....	3-12
3.7.	Average percent streambank erosion for ODFW surveyed stream reaches by subwatershed.....	3-13
3.8.	Landslide activity in the Trask River watershed based on available data	3-16
3.9.	U.S. EPA water discharge permits in the Trask River watershed	3-19
3.10.	Water quality limited water bodies in the Trask River watershed.....	3-20
3.11.	Sites in the Trask River watershed sampled for water quality on more than two occasions, 1960 through 2002.....	3-21
3.12.	Percent of samples (based on ODEQ data) on water quality limited stream segments that exceed the relevant water quality criteria	3-23
3.13.	Water quality criteria and evaluation indicators.....	3-24
3.14.	Criteria for evaluating water quality impairment.....	3-24
3.15.	Percent of monitored storms having median or geomean FCB concentration in the lower Trask River higher than 200 cfu/100 ml	3-32
3.16.	FCB and TSS concentrations by season in the lower Trask River, based on data collected during rainstorms between 1996 and 2002.....	3-33
3.17.	Listing status of fish species	3-37
3.18.	Stream channel habitat benchmarks.....	3-43
3.19.	Area and percentage of “adequate” LWD recruitment potential for two riparian zones (RA1 and RA2).....	3-47
3.20.	Wetlands from NWI maps.	3-49
3.21	Road density in the Trask watershed, based on BLM GIS data	3-50
3.22.	Miles and percent of roads within each subwatershed that were classified as midslope, ridge, or valley topographic position.....	3-51
3.23.	Surveyed road condition lengths by subwatershed.....	3-52
3.24.	Number of surveyed culverts/stream crossings and existing condition per subwatershed.....	3-54
3.25.	Vegetation type based on DBH (diameter at breast height) and basal area of trees....	3-62
3.26.	Distribution of forest stands by dominant tree species	3-64

3.27.	Endangered, Threatened, Candidate, and Special Concern plant species in the Trask River watershed	3-66
3.28.	Percent of conifers, hardwoods, and mixed forest in the riparian zone on ODF lands	3-67
4.1.	Land ownership by subwatershed.....	4-2
4.2.	Relationship between riparian vegetation type and percent of stream bank actively eroding, based on ODFW survey data in the Tillamook Basin	4-7
4.3.	Available data regarding condition of culverts and roads on ODF lands by subwatershed.....	4-10
4.4.	Road density in subwatersheds of the Trask watershed.....	4-11
4.5.	Length of road segments less than 200 ft from a stream and on steep slopes (>50%, >65%, and >70%), by subwatershed.....	4-11
4.6.	Optimum and lethal limit stream temperatures for coho and chinook salmon	4-12
4.7.	Stream shade on ODF land	4-13
4.8.	Average percent stream shade from ODFW Aquatic Habitat Inventories	4-14
4.9.	Percent of monitored storms having median or geomean FCB concentration in the lower Trask River higher than 200 cfu/100 ml	4-22
4.10.	FCB and TSS concentrations by season in the lower Trask River, based on data collected during rainstorms between 1996 and 2002.....	4-25
4.11.	Fish use and habitat condition summary, by subwatershed.....	4-34
4.12.	Fish use and in-stream habitat condition summary, by subwatershed.....	4-34
4.13.	Ranking of subwatersheds on ODF and BLM lands based on 7 indicators of aquatic and riparian condition.....	4-51

Acknowledgements

Many individuals associated with the Oregon Department of Forestry, Bureau of Land Management, and numerous other state and Federal agencies assisted in conducting this watershed analysis. John Hawksworth, Daniel Clough, Carolina Hooper, and Bob Gustavson provided guidance and technical and administrative assistance throughout the process. Jayne Charles coordinated word processing and document production.

We are also grateful to the following individuals who provided data, suggestions, and review comments on draft sections: Steve Bahe, Phaedra Bennett, Chris Bradberry, Jeff Brandt, Keith Braun, Paul Bridges, Debra Drake, John Gettman, Howard Harrison, Jason Hinkle, Nancy Hirsch, Jane Hope, Steve Jacobs, Tony Klosterman, Rick Kneeland, Rod Kramer, Mark Labhart, Barbara Lee, Bob McDonald, Gus Meyer, Dave Michael, Keith Mills, Darrin Neff, Andy Pampush, Jim Paul, Leslie Pittman, Dave Plawman, Doug Robin, David Roche, John Shipman, Clint Smith, Ken Smith, Derek Sowers, Fred Stallard, Carl Symons, Katrina Symons, Charlie Thompson, Claudine Tobalske, Matthew Walker, Rachel Werner, Dennis Worrel
