**THE FIRST TWENTY-FIVE ANNUAL MEETINGS
OF THE FORUM ON THE GEOLOGY OF INDUSTRIAL MINERALS**

1st	1965	Columbus, Ohio
2nd	1966	Bloomington, Indiana
3rd	1967	Lawrence, Kansas
4th	1968	Austin, Texas
5th	1969	Harrisburg, Pennsylvania
6th	1970	Ann Arbor, Michigan
7th	1971	Tampa, Florida
8th	1972	Iowa City, Iowa
9th	1973	Paducah, Kentucky
10th	1974	Columbus, Ohio
11th	1975	Kalispell, Montana
12th	1976	Atlanta, Georgia
13th	1977	Norman, Oklahoma
14th	1978	Albany, New York
15th	1979	Golden, Colorado
16th	1980	St. Louis, Missouri
17th	1981	Albuquerque, New Mexico
18th	1982	Bloomington, Indiana
19th	1983	Toronto, Ontario
20th	1984	Baltimore, Maryland
21st	1985	Tucson, Arizona
22nd	1986	Little Rock, Arkansas
23rd	1987	North Aurora, Illinois
24th	1988	Greenville, South Carolina
25th	1989	Portland, Oregon

NOTICE

The Oregon Department of Geology and Mineral Industries is publishing this paper because the subject matter is consistent with the mission of the Department. To facilitate timely distribution of information, camera-ready copy provided by the compiler has not been edited by the staff of the Oregon Department of Geology and Mineral Industries.

FOREWORD

The Forum on the Geology of Industrial Minerals was founded in 1965 and has met every year since then. This is a remarkable record, considering that the Forum has no officers, dues, bylaws, or permanent base. As the late John Patton remarked, it is an event, not an organization. A Steering Committee takes care of scheduling future meetings, which is about the only business involved.

Each year's host—commonly a state or provincial survey—agrees to put on a program and to publish the resulting papers. On the whole, this arrangement has worked well, but it has a built-in problem: the Forum's proceedings end up as publications of many geological surveys, not as a uniform series under its own name. Some volumes of proceedings have a number in one of the host survey's series of reports, whereas others carry the survey's name but stand alone and are not part of a series. Most are in the 8½-by-11 size, but two are smaller. Variations in typography and format are numerous. Proceedings of the first 25 Forums have been published in 22 states and one province (two states, Ohio and Indiana, have hosted the Forum twice). A few of the earlier publications are out of print, but most remain available.

This report brings together information on all the publications of the Forum's first quarter-century. The first section consists of the titles, citations, and contents of each volume of proceedings. Then comes a subject index, followed by an author index. Each entry of these indexes is keyed by number to the appropriate volume of proceedings, so the reader may find the title and full citation of a desired paper by referring to the first section. At the close of the report is an address list of the agencies that have acted as Forum hosts.

Making a compilation like this one is an open invitation to error: misspelled names, reversed initials, page numbers wrong, and incorrect punctuation. If such errors have crept in here, it is in spite of conscientious typing by Helen Hayes and careful proofing by Marion Bates and me. We crave your indulgence. Our work appears through the good offices of Ron Geitgey and Beverly Vogt of the Oregon Department of Geology and Mineral Industries. All of us hope that geologists will find the report useful as a guide to the distinguished publication record originating in the Forum on the Geology of Industrial Minerals.

ROBERT L. BATES
October 1990

PROCEEDINGS

FORUM ON GEOLOGY OF INDUSTRIAL MINERALS

1. **A Symposium on the Geology of Industrial Limestone and Dolomite.**
Ohio Journal of Science, v. 66, n. 2, p. 97-191, 1966. (Out of print.)

Foreword, Robert L. Bates.....	97
Geological communication in the industrial minerals, Robert L. Bates.....	98
Role of a state geological survey, Lawrence F. Rooney.....	101
A railroad geologist looks at limestone and dolomite, Raymond S. Shrode.....	110
High-calcium limestone deposits of Pennsylvania, F. M. Swain, J. G. Palacas, and J. C. Kraft.....	116
New York cement producers adjust to geologic complexities, Severn P. Brown.....	123
Limestone deposits vs. beneficiation, John A. Ames.....	131
Importance of cement market characteristics to the industrial geologist, George H. K. Schenck and Henry N. McCarl.....	137
Limestone and dolomite: geologists and percentage depletion allowances, Byron N. Cooper.....	146
Water, clay, and rock soundness, James R. Dunn and Peter P. Hudec....	153
Sedimentology of the Salem Limestone in Indiana, Ned M. Smith.....	168
Petrographic analysis of northern Indiana carbonate aggregates, N. B. Aughenbaugh and R. W. Lounsbury.....	179
Corps of Engineers procedure in the development of a new limestone or dolomite source, James E. Brewer.....	188
Significance of chert in limestone and dolomite used as concrete aggregate, William A. Kneller.....	191

2. **A Symposium on Geology of Cement Raw Materials.** Proceedings of the
Second Forum on Geology of Industrial Minerals. Indiana Geological
Survey, 197 p., 1966. (Out of print.)

The state geological survey and the portland cement industry, Kenneth N. Weaver.....	1
Cement raw materials in Indiana, Lawrence F. Rooney.....	13
Geology of cement raw materials in Ohio: a summary, Robert L. Bates.....	23
Geology of cement raw materials in Kentucky, Preston McGrain and Garland R. Dever, Jr.....	31
Geology of cement raw materials in Illinois, J. E. Lamar and Richard D. Harvey.....	45
Gypsum resources of Iowa, Fred H. Dorheim.....	73
Chemical variations in commercial limestone deposits, Kenneth K. Landes.....	83
Deleterious constituents in cement raw materials, N. W. Martin and R. C. Gibson.....	91
Composition of dolomites in carbonate rocks used as concrete aggregates, Donald L. Biggs.....	101
Observations on the use of foliated rocks for coarse aggregate in paving concrete, Michael A. Ozol.....	111
Radioactivity of cement raw materials, Harold A. Wallenberg and Alan R. Smith.....	129

Application of x-ray emission and diffraction to raw materials exploration, G. S. Bobrowski.....	149
Exploring for cement raw materials in developing countries, Robert Mitchell.....	155
Cement raw materials on the public domain, Charles M. Mallett.....	163
Developments in the transportation of cement raw materials and their impact on cement plant location, Richard J. Anderson.....	167
Magnesium mineralization, Gabbs, Nevada, Charles J. Vitaliano and John H. Cleveland.....	173
3. A Symposium on Industrial Minerals Exploration and Development.	
Proceedings of the Third Forum on Geology of Industrial Minerals. State Geological Survey of Kansas, Special Distribution Publication 34, 183 p., 1967. (Out of print.)	
The industrial minerals: in retrospect, introspect, and in prospect, Ian Campbell.....	2
Inventory of construction materials by photo interpretation in Kansas, Alvis H. Stallard.....	7
The use of statistical analysis in quarry evaluation, Terry R. West, Ned M. Smith, and Robert B. Johnson.....	10
Lignite--black gold?, Donald Schwartz.....	26
Sand and gravel exploration by thermal sensing of soil, Donald D. Carr and William M. Webb.....	32
Evaluation of coarse aggregate for architectural concrete, William E. Cutcliffe and James R. Dunn.....	39
Geometry of deposits of the sedimentary nonmetallics, Robert L. Bates.....	45
Stratigraphy and genesis of dolomite, Edwards Formation (Lower Cretaceous) of Texas, W. L. Fisher and Peter U. Rodda.....	52
Cement raw mix control through x-ray emission spectroscopy, Bradner D. Wheeler.....	76
The geochemistry of the Oread Limestone, O. Karmie Galle.....	97
Aggregate solubility related to chert petrographic textures and electron surface morphologies (abstract), William A. Kneller.....	110
Relationships between alpha-quartz cell parameters and some physio-chemical properties of chert aggregates, John T. Wilband and William A. Kneller.....	111
Dissolved salts in oil-field brines--a wasted resource?, Ernest E. Angino.....	120
Opportunities in the beneficiation of feldspathic sands, Frank W. Bowdish.....	126
Pitfalls in the economic exploitation of industrial minerals, Paul J. DuCharme.....	132
Ore reserve calculations, Scott W. Hazen, Jr.....	138
A material producer's approach to workable zoning ordinances, Verne E. Dow.....	152
Potential pozzolanic materials, Floyd D. Everett.....	156
Some potential nonmetallic mineral resources in Missouri, James A. Martin and Heyward M. Wharton.....	162
A feasibility study for the production of filter aids from Kansas volcanic ash, William R. Hess.....	177

4. Proceedings, Fourth Forum on Geology of Industrial Minerals. Themes:
Geology of Chemical Raw Materials; Depositional Models in Economic Stratigraphy. Texas Bureau of Economic Geology, 174 p., 1968.

The view from the Forum, John B. Patton.....	3
Resource and economic importance of Gulf Coastal salt deposits, M. E. Hawkins and S. O. Wood, Jr.....	7
Phosphate in the Atlantic and Gulf Coastal Plains, James B. Cathcart.....	23
Chemicals from the sea, W. F. McIlhenny.....	35
Industrial carbonates of the Texas Gulf Coastal Plain, G. K. Eifler, Jr.....	45
Gulf Coast sulfur resources, John C. Myers.....	57
The Louann salt of the Gulf Coastal region (abstract), George C. Hardin, Jr.....	67
Cap rock genesis and occurrence of sulfur deposits, Ralph E. Taylor.....	69
Internal structure and petrofabrics of Gulf Coast salt domes, William R. Muehlberger and Patricia S. Clabaugh.....	81
Geological exploration with a major chemical company, W. N. McAnulty, Sr.....	91
The structure of the Gulf Coast chemical industry, Stanley A. Arbingast.....	95
Coordinate evaluation of evaporite deposits by dynamic modelings and simulation, Louis I. Briggs and Darinka Zigic-Toshich....	99
Environments of phosphorite deposition in the Central Florida phosphate district, D. H. Freas and S. R. Riggs.....	117
Environmental factors controlling oyster shell deposits, Texas coast, Alan J. Scott.....	129
Gravel deposits of the Minneapolis quadrangle, Minnesota, R. K. Hogberg.....	151
Utilization of depositional models in exploration for nonmetallic minerals, J. H. McGowen.....	157

5. Proceedings, Fifth Forum on Geology of Industrial Minerals. Themes:
Geology of Sand and Gravel Deposits; Can Industrial Mineral Production Survive Urbanization and Conservation?; Symposium on Industrial Mineral, Land Use, and Conservation Problems. Pennsylvania Geologic Survey, 4th Series, Bulletin M64, 271 p., 1970.

Silica sand for glass production in a portion of the Atlantic Coastal Plain, Norman K. Olson.....	3
Sand and gravel resources of the Ohio River Valley: Lawrenceburg to Jeffersonville, Indiana, William M. Webb.....	23
Connecticut's declining sand and gravel resources, Harry L. Siebert Detailed petrography--an aid in the evaluation of gravel aggregate for freeze-thaw resistance, Nanna B. Stewart.....	43
Alpha's sand and gravel deposit and processing plant at Martins Creek, Pennsylvania, Allen R. Krueger.....	55
The role of applied geology in producing high friction aggregate, William E. Cutcliffe	91
Palmerton Sandstone as a source of sand in Carbon and northeastern Schuylkill Counties, Pennsylvania, William D. Sevon.....	105
Geologic frontiers in exploration for sedimentary industrial minerals, George I. Smith.....	119
	141

Mineral resources, computers and the environmental context, James R. Dunn and William A. Wallace.....	153
Long range planning for aggregate materials in metropolitan New York area, Peter P. Hudec.....	165
Potential limestone and dolomite resources of northern Indiana, Lawrence F. Rooney and Curtis H. Ault.....	179
Industrial minerals and the community--an alienation gap, Lance Meade.....	225
Mineral aggregates, exploration, mining and reclamation, Gregory E. Klosterman.....	233
Industrial mineral distribution by unit train, Carl J. Liba.....	243
Symposium: a panel discussion, A. A. Socolow, G. E. Allen, J. R. Coxey, J. R. Dunn, F. A. Masland, Jr., L. J. Minnick.....	259
6. Proceedings, Sixth Forum on Geology of Industrial Minerals. I, Chemical and Industrial Rocks and Minerals; II, Building and Construction Stones and Minerals. Michigan Geological Survey Miscellany 1, 155 p., 1970.	
The party's over: a rambling discourse on suspended contempt, the bittersweet boom, and other heresies, Lawrence F. Rooney..	2
The mineral well act, Robert E. Ives.....	4
Surface mining rehabilitation in Ontario--legislation and implementation, W. E. Coates.....	5
Discovery of potash in the A-1 Salina Salt in Michigan, Raymond J. Anderson and G. C. Egleson.....	15
Distribution of Silurian potash in the Michigan Basin, R. David Matthews.....	20
Detection of potash zones by drilling fluid analysis, Raymond J. Anderson and E. C. Majeske.....	34
Potash feldspar in the Franconia formation, Wisconsin and Minnesota, I. Edgar Odom, John L. Hiatt, and David L. Kramer..	37
Limestone as raw material for hydrocarbon fuels, C. A. Salotti, E. W. Heinrich, and A. A. Giardini.....	48
The economic potential of ferromanganese nodules in the Great Lakes, Edward Callender.....	56
Geology of gypsum in the Lower Peninsula, Michigan, Louis I. Briggs.....	66
Environmental problems and the construction aggregate industry, William E. Hole, Jr.....	77
Potential use of Ohio limestones and dolomites for architectural aggregate, David A. Stith.....	81
Transportation advantages--a unifying factor in mineral aggregate valuation, P. P. Hudec, J. R. Dunn, and S. T. Brown.....	87
Evaluation of three gravel sampling methods, Thomas A. Herbert....	95
Sand and gravel deposits of the Maumee River Estuary, Charles E. Herdendorf and Lawrence L. Braidech.....	103
Slag--Michigan's all purpose aggregate, R. Thomas Segall.....	117
Relationships between physical and chemical properties of the Brassfield Limestone (Silurian) in Indiana, Ohio and Kentucky, Donald D. Carr, Robert R. French, and Robert F. Blakely.....	127
The challenge for the geologist in the extractive industry, H. Lyn Bourne.....	138
Clay and shale resources of Michigan, Harry O. Sorensen.....	143

7. Proceedings, Seventh Forum on Geology of Industrial Minerals. Theme: **Geology of Phosphate, Dolomite, Limestone and Clay Deposits.** Florida Bureau of Geology Special Publication 17, 228 p., 1972.

Mineral resource law: the spectre of ecology, D. Wallace Fields....	5
Conflicting land use in the Florida land-pebble area, J. W. Sweeney.....	9
Sedimentary fractionation and industrial-mineral deposits, Robert L. Bates.....	13
Economic geology of Florida heavy minerals, Thomas Garnar.....	17
Origin, diagenesis, and structure of bauxite deposits in southeast Alabama, Glenn P. Jones.....	23
Sand and gravel exploration methods, Hill McDonald.....	29
Fuller's earth and bentonite in southeastern states, Sam Patterson	37
Vertical variability in the attapulgitite mining area, Charles E. Weaver and Kevin C. Beck.....	51
Absorption characteristics of opaline clays from the Eocene of Georgia, Robert E. Carver.....	91
Future of kaolin industry in southeastern United States, B. F. Buie	103
Miocene clay deposits of peninsular Florida, F. Michael Wahl and Bobby J. Timmons.....	109
Apatite deposits--east central Bahia, Brazil, Gus H. Goudarzi, Pedro Antonio Couto, and Carlo Henrique de Souza.....	117
On the origin of dolomites, Bruce B. Hanshaw and William Back.....	139
Crystallochemical and geochemical comparisons of recent with older dolomites, Lynton S. Land, Emilio Mutis, and W. F. Bradley.....	155
Petrography of carbonate rocks by image analysis, Richard D. Harvey and John C. Steinmetz.....	161
Compositional variations in high-calcium limestone deposits in western Kentucky, Garland R. Dever, Jr. and Preston McGrain....	171
The role of Florida producers in world phosphate markets, Joseph L. Weaver.....	181
Phosphate industry and environmental control, Bruce Congleton.....	185
A program for ore control in the central Florida phosphate district, Richard C. Fountain and Michael E. Zellars.....	187
Hard-rock phosphate in Florida, N. K. Olson.....	195
The origin of some phosphatic minerals in Coastal Plain sediments, John K. Adams.....	211
The relationship between silicic volcanism and the formation of some sedimentary phosphorites, D. R. Lowe.....	217
Georgia phosphate: stratigraphy and economic geology of the Chatham County deposit, James W. Furlow.....	227

8. Proceedings, Eighth Forum on Geology of Industrial Minerals.
Iowa Geological Survey Public Information Circular 5, 189 p., 1973.

Of dinosaurs, economists, and other monsters, Lawrence F. Rooney.....	1
Limestone quarry in a gravel pit, Robert L. Bates.....	5
Limestone and dolomite requirements for glass containers, William W. Kephart.....	11
Use of limestone in Iowa road construction, James D. Myers.....	17
Pennsylvanian clays and shales of south-central Iowa, George R. McCormick.....	23
Structural clay -- where is it?, Don W. Steffen.....	37
Influence of cyclic deposition, structural features, and hydrologic controls on evaporite deposits in the St. Louis Limestone in southwestern Indiana, Duane B. Jorgensen and Donald D. Carr...	43
Geology of the U.S. Gypsum Sperry, Iowa mine, Lyle V. A. Sendlein.....	67
Availability and potential utilization of byproduct gypsum in Florida phosphate operations, John W. Sweeney and Bobby J. Timmons.....	89
Remote sensing -- a new tool for industrial minerals exploration, James V. Taranik.....	99
Barite ore potential of the tailings ponds in the Washington County Barite District in southeastern Missouri, Heyward M. Wharton.....	107
Subsurface pumped storage and environment, R. L. Loofbourow.....	121
The role of the geologist in environmental pollution control, Verne E. Dow.....	131
Humic acid complexes from naturally oxidized lignite: their genesis, chemistry and utilization, Paul L. Broughton.....	135
Mineral resources development in the public domain -- an unfinished case history, Richard C. Runvik.....	159
A matrix classification for industrial minerals and rocks [with chart], James R. Dunn.....	185

9. A Symposium on the Geology of Fluorspar. Proceedings of the Ninth
Forum on Geology of Industrial Minerals. Kentucky Geological Survey
Series X, Special Publication 22, 107 p., 1974.

Fluorine resources -- an overview, Gill Montgomery.....	1
The environments of deposition of fluorspar, R. M. Grogan, P. K. Cunningham-Dunlap, H. F. Bartlett, and L. J. Czel.....	4
Geology of the Derbyshire fluorspar deposits, United Kingdom, J. E. Mason.....	10
Geology of Mexican fluorspar deposits, Greenleaf W. Pickard.....	23
Geology of fluorspar deposits of the western United States, Ronald G. Worl.....	31
Some fluorite-barite deposits in the Mississippi Valley in relation to major structures and zonation, Allen V. Heyl.....	55
Illinois-Kentucky fluorspar district, Robert D. Trace.....	58
Structure of the fault systems in the Illinois-Kentucky fluorspar district, John W. Hook.....	77

Geology and history of Pennwalt Corporation's Dyers Hill Mine, Livingston County, Kentucky, John S. Tibbs.....	87
The Eagle-Babb-Barnes fluorspar project, Crittenden County, Kentucky, F. B. Moodie III and Preston McGrain.....	96
10. Tenth Forum on Geology of Industrial Minerals Proceedings. 1, Reclamation of Pits and Quarries; 2, Carbonate Rocks in Environmental Control. Ohio Geological Survey Miscellaneous Report 1, 100 p., 1974.	
Conservation and reclamation in the sand and gravel industry, William E. Hole, Jr.....	1
Influence of geology on pit and quarry reuse planning, Kenneth L. Schellie.....	6
Assets that can become liabilities, M. R. Leonard.....	10
Medusa's reclamation programs in three states, R. D. Shackleton and Keith C. Roberts.....	13
Conversion from quarrying to underground mining, Nolan B. Aughenbaugh, Carl R. Christiansen, and James J. Scott.....	17
Overview of use of carbonate rocks for controlling acid mine drainage, Ronald D. Hill.....	25
Selection of limestones as neutralizing agents for coal-mine water, Charles T. Ford.....	30
Limestone for controlling acid mine drainage and for treatment of acid mine water, Maurice Deul.....	43
Rock types and laboratory analyses as a basis for managing mine- soils, Richard Meriwether Smith, W. E. Grube, Jr., A. A. Sobek, and R. N. Singh.....	47
Control of industrial sulfur dioxide emissions using carbonate rock materials, James L. Crowe.....	53
Carbonate rock properties required by desulfurization processes, Dennis C. Drehmel and Richard D. Harvey.....	59
Lake marls, chalks, and other carbonate rocks with high dissolution rates in SO ₂ -scrubbing liquors, Richard D. Harvey, Robert R. Frost, and Josephus Thomas, Jr.....	67
Impact on the limestone industry of the use of throwaway-scrubbing processes by utilities, N. A. Frazier, R. B. Engdahl, J. M. Genco, H. S. Rosenberg, and J. H. Oxley.....	81
From limestone to lime: a new concept in gas scrubbing, Clifford J. Lewis.....	90
Disposal of by-products from lime and limestone scrubbers at coal- burning plants, L. John Minnick.....	94
11. Eleventh Industrial Minerals Forum. Montana Bureau of Mines and Geology Special Publication 74, 186 p., 1976.	
Mining trona for soda ash in Wyoming, Lawrence E. Mannion.....	1
Sodium sulphate deposits of Saskatchewan and Alberta, Paul L. Broughton.....	7
Industrial minerals: Alberta's uncelebrated endowment, Wylie N. Hamilton.....	17
Limestone resources of Alberta, M. E. Holter.....	37

Saskatchewan potash in 1975 -- An update on our knowledge, Colin E. Dunn.....	51
Review of the western phosphate field, James A. Rhodes.....	61
Zeolites in sedimentary deposits of the northwestern United States -- potential industrial minerals, Richard A. Sheppard.....	69
Hell bent for bentonite, William B. Beatty.....	85
Silica rock in the northwest, Peter M. Peterson.....	93
The geology of Montana talc deposits, Richard H. Olson.....	99
Vermiculite in the United States, Alfred L. Bush.....	145
Gem materials of British Columbia, Wilbert R. Danner.....	157
Limestone resources of southwestern British Columbia, Wilbert R. Danner.....	171

12. Twelfth Forum on the Geology of Industrial Minerals. Georgia
Geologic Survey Information Circular 49, 78 p., 1978.

Philosophical test-pitting, or thinking while we dig, Donald A. Brobst.....	1
The crushed granite industry of the Atlanta metropolitan area, Robert L. Atkins and W. Robert Power.....	6
The origin of Georgia's kaolin deposits, Roger S. Austin.....	10
Alumina from domestic resources, Don H. Baker, Jr.....	16
Geological classification and evaluation of heavy mineral deposits, Thomas E. Garnar, Jr.....	25
Reconnaissance investigations of offshore phosphate deposits of Georgia and South Carolina, James L. Harding and John E. Noakes.....	37
Development of high extraction magnetic filtration by the kaolin industry of Georgia, Joseph Iannicelli.....	44
Defining a commercial dimension stone marble property, Lance Meade.....	54
Southeastern ceramic raw materials, J. L. Pentecost.....	57
Economic geology of the Georgia marble district, W. Robert Power..	59
Geology of kyanite, Dennis Radcliffe.....	69

13. Thirteenth Annual Forum on the Geology of Industrial Minerals.
Themes: **Gypsum, Silica-rich Sediments, Natural Brines, and
Energy in the Industrial-Minerals Industry.** Oklahoma Geological
Survey Circular 79, 107 p., 1978.

Some factors involved in prospecting for gypsum deposits, Duane Jorgensen.....	1
Major gypsum districts of western Oklahoma, Kenneth S. Johnson....	6
Energy usage in the gypsum industry, E. Robert Kiehl.....	15
Gypsum production and land reclamation by U.S. Gypsum Company at Southard, Oklahoma, Edward B. Westphal.....	20
Economics of glass-sand prospects, Thomas E. Shufflebarger, Jr....	25
Studies of the variability of feldspathic sands refined from the Arkansas River, Frank W. Bowdish.....	36
Impact of environmental considerations on the industrial-sand industry, Richard A. Hunnisett and George H. Didawick.....	44
Tripoli deposits of southwest Missouri and northeast Oklahoma, W. F. Quirk and A. K. Bates.....	47

Arkansas novaculite -- a silica resource, Drew F. Holbrook and Charles G. Stone.....	51
The significance of porosity and surface-area measurements of chert to concrete petrology [abstract], William A. Kneller and Karinlee Kneller.....	59
Domestic petroleum outlook and its impact on industrial mineral development [abstract], Thomas M. Garland.....	59
Origin and chemical evolution of brines in sedimentary basins, Alden B. Carpenter.....	60
Geochemistry of bromide-rich brines of the Dead Sea and southern Arkansas, Alden B. Carpenter and Michael L. Trout.....	78
Iodine in northwestern Oklahoma, Howard M. Cotten.....	89
Geochemistry of anomalous lithium in oil-field brines, A. Gene Collins.....	95
Preliminary design and analysis of recovery of lithium from brine with the use of a selective extractant, Vi-Duong Dang and Meyer Steinberg.....	99

14. **Proceedings, Fourteenth Annual Forum on the Geology of Industrial Minerals. Themes: Production of Industrial Minerals as Related to Regulatory Constraints; Industrial Mineral Mining in Complex Geologic Regions. New York State Museum Bulletin 436, 120 p., 1980.**

Industrial minerals and the mining law, Andrew J. Regis.....	1
Zoning for minerals in Carroll County, Maryland, James R. Dunn, Edmund R. Cueman and Charles M. Preston.....	3
Minimizing regulatory problems of non-coal surface mines, Dennis Pennington.....	6
The use of industrial minerals in construction of the Nelson A. Rockefeller Empire State Plaza, Robert H. Fickies and Robert J. Dineen.....	13
Constraints on industrial minerals -- the Ontario experience, G. Robert Guillet.....	21
Mining as a threat to New York's Deer Creek Marsh, Breck Trautwein and John J. Dragonetti.....	27
The practicalities of a county-by-county survey of granular materials, Edward A. Fernau.....	32
Clearing the air -- a geological approach permits a quick and fair assessment of asbestos(?) hazard in crushed stone, M. Raymond Buyce and James R. Dunn.....	34
Marketing analysis of the sand and gravel business using central- place theory and surficial geology maps, Robert H. Fakundiny...	40
Quality control of aggregates used by the New York State Department of Transportation [abstract], Robert V. Osborne and George D. Toung.....	53
The Vermont marble belt and the economics of current operations, Lance P. Meade.....	54
The Port Leyden, New York, heavy-mineral deposit, Byron D. Stone and Eric R. Force.....	57
Cement limestone mining in a structurally complex setting, George M. Banino.....	65
Durability of shales in embankments and backfills, Peter P. Hudec.....	70

Reserve "determination" and selective mining in volcanic rocks, Sonoma and Napa Counties, California, Charles L. Taylor.....	81
Ore reserve estimates in pegmatites of the southern Black Hills, South Dakota, U.S.A., Rudolph K. Hoagberg and George H. Edwards.....	87
Reconnaissance investigation of high-calcium marble in the Beaver Creek drainage basin of St. Lawrence County, New York, C. Ervin Brown.....	97
Geological spectrum of glass-sand deposits in eastern Canada and their evaluation, E. Wm. Heinrich.....	106
Reserve determinations in a condemnation case in Pennsylvania, Bernard J. O'Neill, Jr.....	113
Ground vibration control in quarry blasting, Clayton L. Bolton, Jr.....	119
Plate tectonics and industrial minerals, Kevin Burke.....	120

15. Proceedings of the Fifteenth Forum on Geology of Industrial Minerals. Theme: **Industrial Minerals in Colorado and the Rocky Mountain Region**. Colorado Geological Survey Resource Series 8, 126 p., 1980.

Development of industrial minerals on Federal lands, Andrew J. Regis.....	1
Problems in developing cement raw materials in western states, Clarence E. Burlison.....	8
The past decade -- mineral aggregate resource management in Ontario, S. E. Yundt.....	11
Geological mapping and the aggregate resources inventory in Ontario, Owen L. White.....	23
The effects of mineral conservation legislation on Colorado's aggregate industry, Stephen D. Schwochow.....	29
Production and marketing of rotary kiln expanded shale lightweight aggregates, Andrew Mackie.....	42
Clay and structural clay products in the Denver area, Wayne Spence.....	47
Raw materials for technical ceramics, Barton Hart.....	51
Development of a metallurgical limestone deposit, James G. Wark.....	53
Production and processing problems of western glass sands, Edwin H. Bentzen, III.....	63
Refractory clays -- prospecting, mining, reclamation, Glenn Golson.....	75
Alunite -- a potentially economic source of aluminum and potash?, Robert B. Hall.....	77
Development of nahcolite-rich oil shales, Irvin Nielsen.....	89
Market potential of the Green River nahcolite/dawsonite in Colorado, Clifford B. Farris.....	96
Zeolites -- economic minerals in Colorado's future [abstract], Arthur J. Gude, III.....	105
General review of northern Colorado and southeastern Wyoming kimberlites, diamonds, and related research activity, W. D. Hausel and M. E. McCallum.....	106
Rare-earth provinces of Colorado, E. Wm. Heinrich.....	116

16. Proceedings of the Sixteenth Annual Forum on Geology of Industrial Minerals [1980]. Missouri Division of Geology and Land Survey, Special Publication 7, 78 p., 1990.	
Occurrence, exploration, and evaluation of cement raw materials, Hank Allen.....	1
The St. Louis Limestone: some of its geologic features in the St. Louis area, A. C. Spreng.....	5
Fault-finding in north-central Missouri: Case history of a geological investigation for a proposed limestone mine [abstract], William T. Shefchick, Diana D. Long and Eileen Chase.....	13
Stone performance specifications for railroad ballast [abstract], John B. Heagler, Jr.....	15
Silica-sand proppants used in well stimulation, Rudolph K. Hoagberg and Jeane Koerner-Moore.....	17
Aggregates evaluation in a recreationally oriented state, Bobby J. Timmons.....	29
Lands for potential mineral resource development, Karen R. Kuff.....	33
Underground space resources in Missouri, John W. Whitfield.....	43
Origin, history, and exploitation of Missouri fire clay deposits, Roy R. Nordwald.....	53
Trace elements and their mineral sources in flint clays and associated aluminous rocks [abstract], Harry A. Tourtelot and Josephine C. Boernge.....	59
Geology and economic potential of the Arkansas barite deposits [abstract], Lynn A. Burton and Perryll C. Gale.....	61
Geological review of the Southeastern Missouri Barite District, Steve W. Sikich.....	63
Geology of Nevada barite, Dennis B. Duewel and Michael J. McFarlane.....	71
Barite deposits outside the United States [abstract], Donald A. Brobst.....	77
17. Industrial Rocks and Minerals of the Southwest. New Mexico Bureau of Mines and Mineral Resources Circular 182, 108 p., 1982.	
Industrial minerals of New Mexico in 1981, G. S. Austin, F. E. Kottlowski, and W. T. Siemers.....	9
Geologic overview of the Carlsbad potash-mining district, George B. Griswold.....	17
Langbeinite in potash deposits, Norbert T. Rempe.....	23
Potash in Libya, Gus H. Goudarzi.....	27
New Mexico's resources: a mineral-domain potpourri, Robert W. Eveleth.....	31
Mica resources of the western United States, Richard J. Beckman...	35
New Mexico limestones -- geology, uses, and economic potential of high-calcium limestone, W. T. Siemers.....	39
Gypsum resources of New Mexico, Mark J. Logsdon.....	43
Large-scale adobe-brick manufacturing in New Mexico, Edward W. Smith.....	49

Scoria exploration and utilization in New Mexico, JoAnne C. Osburn.....	57
Geology of barite in New Mexico, Thomas J. Smith.....	61
Zeolite deposits in the Gila and San Simon valleys of Arizona and New Mexico, Ted H. Eyde.....	65
Lithium-rich tuffs in the Popotosa Formation, New Mexico, Sigrid Asher-Bolinder.....	73
The origin of talc in the Allamoore district, Texas, W. B. Bourbon.....	77
Fluorspar deposits of Christmas Mountains district, Brewster County, Texas, Franklin W. Daugherty.....	85
Geology of the perlite deposit at No Agua Peaks, New Mexico, David Whitson.....	89
Perlite in New Mexico, Robert H. Weber and George S. Austin.....	97
Perlite in El Salvador, Central America, W. Lorenz and P. Müller.....	103
Geology of the Ash Meadows clinoptilolite deposit, Inyo County, California, and Nye County, Nevada [abstract], K. N. Santini and A. R. Shapiro.....	108
Barite beneficiation -- modern mill design [abstract], Thomas J. Plouf.....	108

18. Proceedings of 18th Forum on Geology of Industrial Minerals.
Theme: **Construction Materials**. Indiana Geological Survey
Occasional Paper 37, 251 p., 1983.

Dispersed benefit riddle, James R. Dunn.....	1
Geologic sources of construction materials in Indiana, Donald D. Carr and Curtis H. Ault.....	11
Sand and gravel resources of the Wabash Valley: Causes of variability, Gordon S. Fraser.....	27
Geology of some kaolinite deposits in Egypt, Omar R. El-Mahdy and Mohamed A. El-Askary.....	43
Geology of aggregate resources of Illinois, Jonathan H. Goodwin and John M. Masters.....	61
Geology and characteristics of building limestones of Kansas, David A. Grisafe.....	91
Geologic and economic evaluation of building and decorative stone resources in Michigan, Allan M. Johnson.....	113
Geology of construction materials in Kentucky, Preston McGrain.....	127
A geological sketch -- construction materials in Ohio, David A. Stith and Robert G. Van Horn.....	143
Present and future industrial-mineral resources in Virginia, Palmer C. Sweet.....	157
Sand and gravel and crushed stone in the Midwest, Valentin V. Tepordei.....	173
Expansion and weathering of brick, R. E. Hughes, B. L. Bargh, and W. A. White.....	183
Use of marginal and waste materials in highway construction -- an overview, Quentin L. Robnett.....	199
Relationship between insoluble residue content and pore characteristics for carbonate aggregates, Abdul Shakoor and Terry R. West.....	213

Compensating for adverse operating conditions in a karstic limestone deposit, Robert S. Cathcart.....	223
Optimum usage of stone resources, Ridgemount Quarry, Fort Erie, Ontario, A. J. Cooper and R. Plewman.....	231
Underground mining for aggregate, R. L. Loofbourow.....	245
19. 19th Forum on the Geology of Industrial Minerals -- Proceedings. Ontario Geological Survey Miscellaneous Paper 114, 216 p., 1983.	
Geology of Ontario, O. L. White.....	1
Industrial minerals of northern Ontario, M. A. Vos et al.	9
Ontario industrial minerals for Ontario in the 1980s, G. Minnes...	13
Structural industrial minerals in Ontario, D. Scott.....	20
Mineral aggregates in Ontario legislation, policy and rehabilitation, S. E. Yundt.....	33
Talc -- the "unique" industrial mineral, D. K. Taylor and C. J. Parmentier.....	43
Steep Rock Calcite -- a division of Steep Rock Resources Inc., G. E. Wood.....	46
Geology, mining and processing of nepheline syenite, D. D. MacGregor.....	49
Lime in Ontario, R. A. Knebel.....	54
The role of industrial minerals in Canada from a policy point of view, C. G. Miller.....	60
Aggregates -- the often maligned and often forgotten industrial mineral, D. G. Vanderveer.....	65
Gypsum in Atlantic Canada, W. L. Lewis & M. Hollerman.....	79
Dimension stone of Quebec: geological aspects of commercial granite deposits, S. Nantel.....	96
Mica -- profits and problems, G. C. Hawley.....	109
The Quebec and Ontario silica operations of Indusmin Limited, P. C. Coltas.....	118
The silica resources of Manitoba, D. M. Watson.....	122
Potash in Canada, with special emphasis on Saskatchewan potash deposits, G. McLaughlin.....	128
Setting the scene for aggregate resource management in Alberta, W. A. D. Edwards and R. B. Hudson.....	136
Industrial minerals in British Columbia, past, present and future development potential, Z. D. Hora.....	144
Industrial minerals as world travellers, P. W. Harben.....	148
Arkansas Novaculite: Indians, whetstones, plastics and beyond, C. T. Steuart et al.	156
Mining the silica sands of west Tennessee, M. Zdunczyk.....	168
The geology of industrial minerals and rocks in China, Z. W. Huang.....	175
Practical procedures for siting crushed stone quarries, B. K. Fowler.....	180
Search for skid resistant aggregates in Ontario, C. Rogers.....	185
Computer-aided mine planning, G. M. Banino and W. K. Crist.....	206
Economic potential of various sandstone units within the Nubian Sequence: examples from Israel, T. Minster.....	209

Guidebook for Field Trips. Ontario Geological Survey
Miscellaneous Paper 111, 48 p., 1983.

Field Trip A, Talc and nepheline syenite, D. G. Minnes, W. J. Logan, and E. V. Sado.....	5
Field Trip B, Aggregates, Stone, and Glass, D. W. Scott and S. E. Yundt.....	23
20. Twentieth Forum on the Geology of Industrial Minerals. Focus: Industrial Minerals of the Mid-Atlantic States. Maryland Geological Survey Special Publication 2, 152 p., 1985.	
Maryland's mineral resources: past, present, and potential, Karen R. Kuff.....	3
Industrial and miscellaneous silica resources in Virginia, Palmer C. Sweet.....	11
Pennsylvania's slate industry: alive and well, Samuel W. Berkheiser, Jr.....	23
Cement production and related raw material consumption in the Middle Atlantic States, Wilton Johnson.....	35
Geology and mining of gypsum in Virginia, Roger D. Sharpe.....	41
Maryland's carbonate rocks: alpha and omega, Robert V. Demicco....	51
Nonfuel mineral industry in Virginia, Palmer C. Sweet.....	59
The chromite industry of Maryland, past and future, J. R. Brooks..	69
Rates of preemption of sand and gravel deposits in the urban area, Karen R. Kuff.....	73
Industrial minerals of New York State, William M. Kelly.....	81
Limestone resources for the coal industry: an evaluation of the Newman Limestone on the Cumberland Overthrust Block, south- eastern Kentucky, Garland R. Dever, Jr., Jack R. Moody, and Thomas L. Robl.....	87
Non-metallic mineral deposits of alpine peridotite-serpentinite bodies, E. Wm. Heinrich.....	95
Geology of sodium sulfate deposits of the northern Great Plains, Laurie A. Slezak and William M. Last.....	105
Refractory dolomite production in a geologically complex area, David A. Hopkins.....	117
Urban encroachment on dolomite resources of the Chicago area, Illinois, Donald G. Mikulic and Jonathan H. Goodwin.....	125
Potential markets of lime and limestone in sulfur control, Subhash B. Bhagwat.....	133
The environmental geology of Glasgow, Scotland - a legacy of urban surface and subsurface mining, M. A. E. Browne and J. H. Hull..	141

21. Proceedings of the 21st Forum on the Geology of Industrial Minerals. Theme: **Aggregates to Zeolites (AZ) in Arizona and the Southwest**. Arizona Geological Survey Special Paper 4, 134 p., 1987.

Mining and environmentalism -- finding common goals, James R. Dunn.....	1
Geologic setting of industrial rocks and minerals in Arizona, Stephen J. Reynolds and H. Wesley Peirce.....	9
Industrial minerals and rocks of Arizona, H. Wesley Peirce.....	17
Industrial minerals of Nevada, Keith G. Papke.....	24
Industrial minerals of Utah, Bryce T. Tripp.....	31
The geology of cement raw materials - Pacific Southwest, S. A. Kupferman.....	37
Geologic-setting and operations overview, Lucerne Valley limestone mining district, Lucerne Valley, California, Howard J. Brown..	44
Natural lightweight aggregates of the Southwest, Dennis Bryan.....	55
Acquisition of Federally owned industrial minerals, Terry S. Maley	64
Mining industrial minerals on Arizona State Trust Lands, Edward C. Spalding.....	81
Minerals and health: the asbestos problem, Malcolm Ross.....	83
A comparison of selected zeolite deposits of Arizona, New Mexico, and Texas, Mark R. Bowie, James M. Barker, and Stephen L. Peterson.....	90
Geology and industrial uses of Arizona's volcanic rocks, John W. Welty and Jon E. Spencer.....	106
Locating, sampling, and evaluating potential aggregate deposits, Leo Langland.....	116
Solar salt in Arizona, Jerry Grott.....	120
Bentonite and specialty sand deposits in the Bidahochi Formation, Ted H. Eyde and Dan T. Eyde.....	123
Mexico's industrial minerals, Joaquin Ruiz and Edmundo Berlanga...	128
Approach to locating high-quality aggregates in the Basin - Range Province, James R. Miller, G. Ramanjaneya, and Gerald Allen...	129
Geologic evaluation of the southern portion of Searles Lake, California, K. N. Santini.....	130
Raw materials and the manufacture of vitrified clay pipe in Arizona, Don Morris.....	131
The Bowie chabazite deposit, Ted H. Eyde and Dan T. Eyde.....	133
Arizona Portland Cement Company's Rillito operation, J. W. Rains.....	134

22. Proceedings of the 22nd Forum on the Geology of Industrial Minerals. Arkansas Geological Commission Miscellaneous Publication MP-21, 115 p., 1988.

Some thoughts on our mineral future, Eugene N. Cameron.....	1
Mineral raw materials for flat glass manufacturing, F. D. Huntley and R. R. Snow.....	11
Cause and effect of jointing in quarries in central and northern Indiana, Curtis H. Ault.....	17
The cement industry and cement raw materials in Texas, Mary W. McBride.....	31

Virginia's lime industry, Palmer C. Sweet.....	37
Tectonically emplaced serpentinites of the Benton uplift, Saline County, Arkansas, Timothy L. Cox.....	49
Quartz crystal deposits of the Ouachita Mountains - Arkansas and Oklahoma, J. Michael Howard and Charles G. Stone.....	63
Prairie Creek kimberlite (lamproite), L. G. Krol.....	73
Barite deposits in Arkansas, A. Wallace Mitchell.....	77
General geology and mineral resources of the Ouachita Mountains, Arkansas, Charles G. Stone and William V. Bush.....	87
The marbles of Nepal: a preliminary report on the Godavari marble deposit, southwestern Kathmandu Valley, Nepal, John H. Gray and Arthur J. Pyron.....	107

Abstracts

Industrial sand, John Cooke.....	112
Getting into industrial minerals: facing the realities, David H. Holmes and Ken Santini.....	112
Natural zeolites as a commodity: have they arrived yet?, David A. Holmes.....	112
Carbonatite and alnoite of north-central Arkansas: diamonds in Pope County?, Ellen Mullen Morris.....	112
Metagabbros of the Ouachita core, Arkansas and Oklahoma, Ellen Mullen Morris and Charles G. Stone.....	113
Petrology and geochemistry of Granite Mountain syenites, Ellen Mullen Morris.....	113
Weyerhaeuser gypsum operation - Briar plant and mine, Larry P. Renard.....	114
The hard and soft of it: uses of Arkansas novaculite, Charles T. Steuart.....	114
Arkansas production of mineral resources with emphasis on industrial minerals and rocks, Raymond B. Stroud.....	115
Industrial garnet production from north Idaho placers, Arthur D. Zierold.....	115

23. Proceedings of the 23rd Forum on the Geology of Industrial Minerals. Illinois State Geological Survey IMN 102, 105 p., 1989.

Keynote address: Industrial Minerals Research, Ralph Grim.....	1
The current state of industrial minerals in China, Fred Barnard...	5
Geology of six Kentucky carbonates; sulfur sorbents for AFBC, Lance S. Barron, Garland R. Dever, Jr., and Thomas L. Robl....	11
Possible underground mining of limestone and dolomite in central Illinois, James W. Baxter.....	21
Model of construction aggregates demand and supply: a Chicago area case study, Subhash B. Bhagwat.....	29
Industrial sand in Indiana, Donald D. Carr, Curtis H. Ault, and Todd A. Thompson.....	35
Depositional environments of natural-aggregate reserves, Osseo District, Twin Cities Metropolitan Area, Minnesota, Rudolph K. Hoagberg.....	41
Evaluation of the economic usefulness of earth materials by x-ray diffraction, Randall E. Hughes and Robin L. Warren.....	47

The history, geology, and future of industrial clays in Illinois, Randall E. Hughes, W. Arthur White, and Robin L. Warren.....	59
Effects of rock types in Illinois gravels on freeze-thaw test beams, John M. Masters.....	71
The Chicago stone industry: a historical perspective, Donald G. Mikulic.....	83
An overview of the geology of clays, shales, and slates utilized in ceramic and structural clay products in Georgia, Bruce J. O'Connor.....	91
Industrial minerals and the CUSMAP program, A. W. Rueff.....	97
Silica sands: grassroots exploration or acquisitions, Mark J. Zdunczyk.....	101
Enhancement of sulfur dioxide sorption reactivity of limestone [abstract], Massoud Rostam-Abadi, D. L. Moran, R. R. Frost, R. D. Harvey, and G. C. Sresty.....	105
Reserve evaluation and planning on an IBM personal computer [abstract], George F. Swindle.....	105

24. Proceedings, 24th Forum on the Geology of Industrial Minerals. South Carolina Geological Survey, 155 p., 1990.

A central Indiana model for predicting jointing characteristics in underground limestone mines, Curtis H. Ault and Andrew F. Haumesser.....	1
Occurrence and exploitation of ore deposits in the Shady Dolomite, Cartersville Mining District, Georgia, Stan D. Bearden.....	9
Celestite resources of Mexico, Stan D. Bearden.....	13
Lamproites in southeast Kansas and their industrial uses, Pieter Berendsen.....	17
Ball clays, weathering and climate, Colin Bristow.....	25
The potential for heavy minerals in the Lilesville, North Carolina sand and gravel deposits, John E. Callahan and James R. Craig	39
Geology of the Neisler mine, KMG Minerals Inc., and the mica- bearing pegmatites in the area southwest of Kings Mountain, North Carolina, John M. Conner.....	45
Potential uses of the material to be excavated from the proposed Superconducting Super Collider site in Illinois, Lucille M. Curran and John M. Masters.....	49
Geochemistry: a new approach for vermiculite exploration in South Carolina, Arthur H. Maybin, III and Robert H. Carpenter.....	57
Economic considerations in the developing nations and their impact on trade in industrial minerals, Henry N. McCarl.....	71
Mineralogy, origin and evaluation of talc deposits near Pacolet Mills, South Carolina, Steven K. Mittwede.....	75
Thrust sheets and mineral resources in the Greenville 1°x2° quadrangle, South Carolina, Georgia and North Carolina, Arthur E. Nelson, J. Wright Horton, Jr., Frank G. Lesure, Henry Bell, III and Gary C. Curtin.....	83
The industrial rocks and minerals in Georgia - an overview, Bruce J. O'Connor.....	95
North Carolina State University's Research Laboratory in Asheville, NC and work with the industrial mineral industry in the south- eastern United States, Immo H. Redeker.....	111

The Hallman-Beam spodumene pegmatite mine, Lithium Corporation of America, Raymond P. Spanjers.....	115
Fuller's earth deposits in Florida and southwestern Georgia, Steven M. Spencer, Frank R. Rupert and J. William Yon.....	121
Present and future dimension stone industry in Virginia, Palmer C. Sweet.....	129
Caught with your aggregates down, Bobby J. Timmons.....	137
Ball clay in the United States, Doss H. White, Jr.	145

Abstracts

Exploration and evaluation of granite (dimension stone) in the southeastern United States, Robert H. Carpenter and R. Lee Aston.....	149
Industrial minerals of the Pacific Northwest, Ronald P. Geitgey...	149
Distribution of heavy minerals in surficial sediments of the inner Atlantic continental shelf offshore of Myrtle Beach, South Carolina, Andrew E. Grosz and Douglas D. Nelson.....	150
Current PC computer applications for industrial minerals operations, M. Eugene Hartley.....	150
Mine regulation permitting in South Carolina, R. Craig Kennedy....	151
The kaolin industry of Georgia and South Carolina, William M. Mallory.....	151
Geologic considerations in the crushed stone industry as applied to select Martin Marietta quarries of South Carolina, Steven L. McKeel.....	152
Sampling and testing for dimension stone usage, Lance Meade.....	152
Brick industry of South Carolina, Jody Patrick, Jr.	153
Industrial implications of kaolin clay stratigraphy in Georgia, Sam M. Pickering, Jr., Harold L. Webb, and Harold W. Dailey...	153
Mineralization in the St. Peter Sandstone detrimental to foundry sand use, Steven J. Stokowski, Jr.	154
The history of industrial mineral use in South Carolina, Alan-Jon W. Zupan.....	154

25. Industrial Rocks and Minerals of the Pacific Northwest.

Proceedings of the 25th Forum on the Geology of Industrial Minerals. Oregon Department of Geology and Mineral Industries Special Paper 23, 100 p., 1990.

Industrial minerals in Oregon, Ronald P. Geitgey.....	1
Limestone deposits in Oregon, Howard C. Brooks.....	8
Talc and soapstone in Oregon, M. L. Ferns.....	11
Oregon bentonite, Jerry J. Gray.....	14
Developments in applications for southeast Oregon bentonites and natural zeolites, Dave Leppert.....	19
Industrial minerals in Washington--1988: Production and potential, Nancy L. Joseph.....	24
Principal deposits of industrial minerals in Idaho, Earl H. Bennett, Samuel W. McNary, Nathan T. Lowe, Terry R. Neumann, Richard L. Rains, Nicholas T. Zilka, Ronald T. Mayerle, Andrew M. Leszczykowski, Jerry E. Olson, and Peter N. Gabby.....	31
Montana's industrial minerals, Richard B. Berg.....	37

Industrial minerals in British Columbia: Present producers and further development opportunities, Z. D. Hora.....	45
Overview of the impact on the perlite industry of the IARC classification of crystalline silica as a Group 2A (probable) carcinogen in humans, James M. Barker and Christopher McKee...	51
Practices and problems of perlite expansion and testing at the New Mexico Bureau of Mines and Mineral Resources, Socorro, New Mexico, James M. Barker.....	63
Pozzolans of the Northwest: Natural versus artificial, Jenny Flechsig.....	69
Rare earth resources: Comparisons of the geology of existing and potential resources, Stephen B. Castor.....	73
Pacific Northwest zeolite update, David A. Holmes.....	79
Problems in mineral products testing, Edwin H. Bentzen III.....	89
1990 Forum on the Geology of Industrial Minerals: Virginia, Palmer Sweet.....	92

SUBJECT INDEX

Numbers in bold face refer to Proceedings volumes.

- acid mine drainage
 Deul **10**, 43-46
 Ford **10**, 30-42
 Hill **10**, 25-29
- adobe bricks
 Smith, E.W. **17**, 49-56
- AFBC
 Barron et al. **23**, 11-20
- aggregates
 See also crushed stone; sand and gravel
 Aughenbaugh and Lounsbury **1**, 179-187
 Bhagwat **23**, 41-45
 Biggs **2**, 101-110
 Carr and Ault **18**, 11-25
 Bryan **21**, 55-63
 Cutcliffe **5**, 105-117
 ----- and Dunn **3**, 39-44
 Dunn, J.R. and Hudec **1**, 153-168
 Edwards, W.A.D. and Hudson **19**, 136-143
 Goodwin and Masters **18**, 61-90
 Hoagberg **23**, 41-45
 Hole **6**, 77-80
 Hudec **5**, 165-177
 ----- et al. **6**, 87-94
 Klosterman **5**, 233-241
 Kneller, W.A. **1**, 191; **3**, 110
 Langland **21**, 116-119
 Loofbourow **18**, 245-251
 Mackie **15**, 42-46
 McGrain **18**, 127-142
 Miller, J.R. et al. **21**, 129
 Osborne and Toung **14**, 53
 Ozol **2**, 111-128
 Rogers, C. **19**, 185-205
 Schwochow **15**, 29-41
 Segall **6**, 117-126
 Shakoor and West **18**, 213-222
 Stallard **3**, 7-9
 Stith **6**, 81-86
 ----- and Van Horn **18**, 143-155
 Timmons **16**, 29-32; **24**, 137-143
 Vanderveer **19**, 65-78
 White, O.L. **15**, 23-28
 Wilband and Kneller **3**, 111-119
 Yundt **15**, 11-22; **19**, 33-42
- Alabama
 Jones **7**, 23-28
- Alberta
 Broughton **11**, 7-15
 Edwards and Hudson **19**, 136-143
 Hamilton **11**, 17-35
 Holton **11**, 37-50
- alnoite
 Morris, E.M. **22**, 112-113
- alumina
 Baker **12**, 16-24
- aluminum
 Hall **15**, 77-88
- alunite
 Hall **15**, 77-88
- apatite
 Goudarzi et al. **7**, 117-138
- architectural concrete
 Gutcliffe and Dunn **3**, 39-44
 Stith **6**, 81-86
- Arizona
 Bowie et al. **21**, 90-105
 Eyde, T.H. **17**, 65-71
 ---- and Eyde **21**, 123-127
 Grott **21**, 120-122
 Morris, D. **21**, 131-132
 Peirce **21**, 17-23
 Rains **21**, 134
 Reynolds and Peirce **21**, 9-16
 Spalding **21**, 81-82
 Welty and Spencer **21**, 106-115
- Arkansas
 Burton and Gale **16**, 61
 Carpenter, A.B. and Trout **13**, 78-88
 Cox **22**, 49-61
 Holbrook and Stone **13**, 51-58
 Howard and Stone **22**, 63-71
 Krol **22**, 73-75
 Mitchell, A.W. **22**, 77-86
 Morris, E.M. **22**, 112-113, 113-114
 ----- and Stone **22**, 113
 Renard **22**, 114
 Steuart **22**, 114
 ----- et al. **19**, 156-167
 Stone, C.G. and Bush **22**, 87-106
 Stroud **22**, 115
- asbestos
 Buyce & Dunn **14**, 34-39
 Heinrich **20**, 95
 Ross **21**, 83-89
 ----- and Stone **22**, 133

- Atlantic coastal plain
 Adams 7, 211-216
 Cathcart, J.B. 4, 23-34
 Olson, N.K. 5, 3-22
- Atlantic continental shelf
 Groesz and Nelson 24, 150
- attapulgitic
 Weaver and Beck 7, 51-90
- ball clay
 Bristow 24, 25-37
 White, D.H., Jr. 24, 145-147
- barite
 Brobst 16, 77
