## 2011 Oregon County and State Agricultural Estimates

Oregon Agricultural Information Network (OAIN)  
Extension Economic Information Office  
Department of Agricultural & Resource Economics  
Oregon State University

This report provides a quick overview of Oregon's recent crop and livestock production. The following pages include 2011 preliminary estimates for production and value. In addition, there are revised estimates for 2009 and 2010. Preliminary or first estimates are revised as needed when updated information is received. All of the data reported here were in our database as of March 15, 2012. We collect only farmgate-level estimates. That means that no marketing charges or indirect government payments are included in our price estimates.

Web access is provided for you to review and download the publicly available numbers that we update periodically in our database. The URL for our homepage is: <http://oain.oregonstate.edu/> This publication, as well as earlier versions, can be obtained by clicking on the Ag Summaries (SR 790) button on the right side of our homepage. Statewide and county charts are available by clicking the Charts button.

To see any portion of our database accessible to the public, you may click on the homepage button, OAIN Database. No username/password is required; just click on the Next button below the login boxes. You may then bring up pre-formatted reports on the menu provided or click on User Defined Report/Query to create your own tables. These tables may be displayed on your monitor and downloaded for printing. Or you may select a spreadsheet output for further analysis.

We try hard to protect confidential data from being viewed by agricultural industry members or the general public. That is done by hiding them within our database or by combining them with other commodities in county, regional, or statewide summaries. Our definition of confidentiality is similar to that used by the Oregon Field Office, National Ag Statistics Service, USDA. Any data that represent fewer than three producers or one producer with 60 percent or above are confidential.

The estimates we provide are obtained from a team of more than 70 OSU Extension and Research faculty statewide. They are knowledgeable about selected crop and livestock production in the counties that they serve. These numbers reflect their best judgment with respect to commodity production, prices, and usage patterns over time. The estimates represent overall annual values. We recognize that their choices for aggregating data may shift the gross farm sales ranking of specific commodities and sectors.

Commodities like some of the livestock forages are frequently produced, in part, for on-farm use. A single price estimate is made for each county's production regardless whether it is sold in an open market environment or consumed as an input to the production of other commodities (e.g., beef cattle, dairy cattle, goats, or sheep). The value of production estimate reflects the entire value of the commodity without regard to whether it is sold or consumed on-farm. The percent of sales for the commodity is also estimated. That percentage is multiplied by the value of production estimate to derive the estimated value of sales. Thus, for commodities that are consumed on-farm in other enterprises, the value of production would be significantly higher than the value of sales. The year that a commodity is sold is not a factor in preparing our estimates of percent sold.

A special thank you to Robert Clark, President, Dixon Creek Software, Corvallis, Oregon. Mr. Clark is the database programmer who designed and developed the software necessary to make the OAIN system operational. We are now able to collect and disseminate data electronically through a web-based system. He continues to provide technical support and upgrades. We also wish to acknowledge and bid farewell to Dr. Larry Burt, who provided leadership to the OAIN project for the past 15 years. This year he oversaw the transition to Dr. Bart Eleveld, who assembled the current report and uploaded the data to the web.

## Agricultural Commodity Sales Oregon, 2011p

### 2011p Sales (\$000) by Commodity/Sector

Field Crops	323,848
Grains	634,781
Grass & Legumes	340,629
Hay & Forage	450,597
Nursery & Greenhouse Crops	641,141
Small Fruit & Berries	145,018
Small Woodlots & Christmas Trees	212,629
Specialty Products	120,216
Tree Fruit & Nuts	337,122
Vegetables & Truck Crops	315,260
<b>All Crops</b>	<b>\$3,521,241</b>
Cattle & Calves	799,843
Dairy Products	523,946
Other Animal Products	203,845
Poultry	150,702
<b>All Livestock</b>	<b>\$1,678,336</b>
<b>All Crops &amp; Livestock</b>	<b>\$5,199,577</b>

*p = preliminary. Values are in thousands of dollars (e.g., 10,000 = \$10,000,000).*

## Gross Farm & Ranch Sales by Commodity Group 2011p, 2010r, & Percentage Change

Commodity Group	2011p (thousands of \$)	2010r (thousands of \$)	Percentage Change
Grains	634,781	419,666	51.26%
Hay & Forage	450,597	305,089	47.69%
Grass & Legumes	340,629	256,702	32.69%
Field Crops	323,848	298,957	8.33%
Tree Fruit & Nuts	337,122	306,820	9.88%
Small Fruit & Berries	145,018	107,559	34.83%
Vegetables & Truck Crops	315,260	294,513	7.04%
Specialty Products (1)	973,986	948,834	2.65%
<b>All Crops</b>	<b>3,521,241</b>	<b>2,938,140</b>	<b>19.85%</b>
Cattle & Calves	799,843	709,107	12.80%
Dairy Products	523,946	472,721	10.84%
Poultry	150,702	142,691	5.61%
Other Animal Products (2)	203,845	104,348	95.35%
<b>All Livestock and Poultry</b>	<b>1,678,336</b>	<b>1,428,867</b>	<b>17.46%</b>
<b>Total Sales</b>	<b>5,199,577</b>	<b>4,367,007</b>	<b>19.07%</b>

*p = preliminary, r = revised. Values are in thousands of dollars (e.g., 10,000 = \$10,000,000).*

*(1) Crops included in Specialty Products are nursery, bulbs, greenhouse, turf, miscellaneous specialty crops, farm forest products (small woodlots logs and firewood), Christmas trees, hybrid poplars, and fee hunting and recreation.*

*(2) Starting in 2011, this category includes commercial fisheries and aquaculture.*
