**Oregon's Epi Curve: COVID-19 cases**

This chart shows the number of Oregonians who have been identified as COVID-19 cases and whether they were ever hospitalized for their illness. ‡

Total Cases	Hospitalized	Not Hospitalized	Hospitalization Status Unknown
<b>11,454</b>	<b>1,180</b>	<b>9,063</b>	<b>1,211</b>

\*Illnesses that began during this time period may not yet be reported.

Enter or drag the cursors to change the onset date range. January 26, 2020 to July 8, 2020

■ Not Hospitalized
 ■ Hospitalized
 ■ Hospitalization Status Unknown

**When people say we want to “flatten the curve,” this is the curve they are talking about.**

We want to slow the number of new cases of COVID-19 so our healthcare system isn't overwhelmed and can provide care to everyone who needs it. Staying home except for essential needs and practicing social distancing are important ways we can flatten the curve.

**Notes**

† Cases are counted by onset date (the date the person started having symptoms). When a person with symptoms did not report their onset date or when a person without symptoms is tested, their onset date is calculated as 2 days before the specimen was collected for testing.

‡ COVID-19 cases include both confirmed and presumptive cases.

COVID-19 data are provisional and subject to change.

### Oregonians tested for COVID-19

This chart shows the number of Oregonians tested for COVID-19 and whether ..

Total Persons Tested	Negative	Positive
<b>286,197</b>	<b>275,316</b>	<b>10,881</b>

\*We may not have results yet for all specimens tested during this time.

Enter or drag the cursors to change the onset date range.

March 1, 2020 to October 10, 2110

■ Negative ■ Positive

†Tests are counted by the first specimen collection date. If that date is not available, onset date is used.

‡ In this chart, positive test results are considered confirmed cases. Negative test results include persons who are not considered cases as well as presumptive cases (i.e., symptomatic persons with exposure to a confirmed case) with a negative test.

This chart includes test results from the Oregon State Public Health Laboratory as well as commercial and other laboratories. A significant amount of COVID-19 testing for Oregon residents is being done by commercial laboratories and testing numbers will be different than those posted by Oregon State Public Health Laboratory on Oregon Health Authority's website.

COVID-19 data are provisional and subject to change.
