Oregon continues COVID-19 vaccinations

Oregon's COVID-19 vaccination effort continues with the state's first long-term care facility residents and staff receiving vaccinations. Oregon, like other states, does not currently have enough vaccine to immunize everyone against COVID-19. The first people getting the vaccine are health care workers and people who live or work in long-term care facilities, such as skilled nursing facilities. OHA's data dashboard shows the total number of vaccines given to date in Oregon, based on these populations.

Overview

Updated 12/22/2020 with data from 12:01 am (updated Monday - Friday)*

Total cases	105,073
Total deaths	1,382
Positive tests	145,343
Negative tests	2,346,094
Total tests	2,491,437

Cases by County and Demographic Tables

Changes to COVID-19 Test Reporting Complete

December 21, 2020 — OHA has completed its COVID-19 testing data transition and has updated all [dashboards](#) to show the number of COVID-19 test results received by electronic laboratory reporting in Oregon. OHA transitioned from person-based reporting of COVID-19 tests to a test-based system.

Testing data includes [positive and negative test results](#), and trends both [statewide](#) and [by county](#) for all tests administered in Oregon.

County	Cases ¹	Deaths ²
Baker	409	4
Benton	1232	11

For hospital capacity data: Please see our [daily COVID-19 update](#) and [Hospital Capacity dashboard](#).

For testing data by county: Please see our [COVID-19 Testing by County dashboard](#).

For testing at the Oregon State Public Health Laboratory: Please see our [daily COVID-19 update](#).

¹This includes cases confirmed by diagnostic testing and presumptive cases. Presumptive cases are people without a positive diagnostic test who have COVID-19-like symptoms and had close contact with a laboratory confirmed case. Antibody test results are **not** included in our data. County of residence for cases may change as new information becomes available. If changes occur, we will update our counts accordingly.

²For additional details on individuals who have died from COVID-19 in Oregon, please refer to our [press releases](#).

³This includes cases who test negative and are not epi-linked to a confirmed case.

⁴Ever hospitalized, if available, as reported to OPERA. OPERA is the state of Oregon's electronic disease surveillance system for COVID-19. Cases are considered hospitalized if they were ever admitted to the hospital for inpatient care during their COVID-19 illness. Cases who were examined in but not admitted to a hospital may be incorrectly classified as hospitalized until interview and medical record review are complete, leading to fluctuations in the number of hospitalized COVID-19 cases.

Visit our Community Resources page to find information for individuals, families, people with disabilities, caretakers, workers, and more.

Community Resources - Available in multiple languages

Safe and strong logo

As we face COVID-19 together, it's clear that we are strongest when we are in community, even from a distance. To help keep our communities safe and healthy, OHA's **Safe + Strong website** provides updates, resources and information in multiple languages. With the right information, we can get through this — together.

Safe + Strong Helpline: 1-800-923-HELP (4357)

□ School Reopening

Oregon public health officials have developed evidence-based metrics to help school boards and school districts make decisions about how they can safely reopen schools. OHA is working closely with the Oregon Department of Education on their **Ready Schools, Safe Learners** guidance for public and private K-12 schools for the 2020-21 school year.

Social Media Graphics: COVID-19 Vaccine

COVID-19 vaccines are being carefully evaluated in clinical trials. They will only be approved if they meet safety standards and make it much less likely you'll get COVID-19.

En español

People who treat or support people at-risk for COVID-19 (health care workers; staff and residents at nursing facilities) will have first access to vaccination.

[En español](#)

Vaccination gives us hope the pandemic will end, but in the meantime, we need to continue safety measures to keep the virus from spreading.

[En español](#)

COVID-19 vaccines undergo rigorous safety testing. Any authorization for vaccine will be vetted by three independent scientific groups.
