Oregon's Epi Curve: COVID-19 cases

This chart shows the number of Oregonians who have been identified as COVID-19 cases and whether they were ever hospitalized for their illness.‡

Total Cases	Hospitalized	Not Hospitalized	Hospitalization Status Unknown
120,223	6,793	79,029	34,401

When people say we want to "flatten the curve," this is the curve they are talking about.

We want to slow the number of new cases of COVID-19 so our healthcare system isn't overwhelmed and can provide care to everyone who needs it. Staying home except for essential needs and practicing social distancing are important ways we can flatten the curve.

Please note: The light blue shaded area shows the past 17 days, and not all people who got sick during this time period have been reported yet to OHA.

Enter or drag the cursors to change the onset date range. January 26, 2020 to January 5, 2021

■ Not Hospitalized
■ Hospitalized
■ Hospitalization Status Unknown

Notes

† Cases are counted by onset date (the date the person started having symptoms). When a person with symptoms did not report their onset date or when a person without symptoms is tested, their onset date is calculated as 2 days before the specimen was collected for testing.

‡ COVID-19 cases include both confirmed and presumptive cases.

COVID-19 data are provisional and subject to change.

The Oregon Health Authority (OHA) is part of the statewide response working to address and reduce the effects of COVID-19 on the lives of Oregonians. Data presented here are from the O..

†Tests are counted by the date the electronic laboratory report (ELR) or other electronic test report was created. Counts reflect individual tests and not individual persons tested.

These are data from HL7 and CSV electronic laboratory reports and do not include results received via fax, eCR or the Oregon COVID-19 Reporting Portal. Non-antibody and non-'info only' COVID results are deduplicated based on medical record number (MRN), accession number, facility and result daily.

COVID-19 data are provisional and subject to change.
