Have a question about the COVID-19 vaccine?

1. Check out the website below.
2. **Text** ORCOVID to 898211 to get text/SMS updates (English and Spanish only)
3. **Email** ORCOVID@211info.org (All languages)

If you can't find the answer on the website, by text, or by email:

4. **Call** 211 or 1-866-698-6155 from 6 a.m. – 7 p.m. daily, including holidays. Please be aware that wait times may be long due to high call volumes. There is an option to get a call back rather than wait on hold. (Languages spoken: English and Spanish. Free interpretation available for all other languages.)
 - TTY: Dial 711 and call 1-866-698-6155

Educators now eligible to receive COVID-19 vaccine

As of Monday, Jan. 25, 2021, Oregon educators — including public and private K-12 educators and staff, early childhood educators and staff and childcare providers and staff — can begin getting vaccinated against COVID-19. If we want to reopen schools to in-person instruction this school year, this is the time to act.

If you do qualify for a COVID-19 vaccine as an Oregon educator, we ask that you attend educator events only. State and local officials ask that you please only attend special educator vaccination events or go to vaccination sites that are clearly designated as open to educators. Vaccine providers may ask you to declare in some way that you are a public or private K-12 educator or staff member, early childhood educator or childcare provider or staff.

For hospital capacity data: Please see our [daily COVID-19 update](#) and [Hospital Capacity dashboard](#).

For data on testing at the Oregon State Public Health Laboratory: Please see our [daily COVID-19 update](#).

¹This includes cases confirmed by diagnostic testing and presumptive cases. Presumptive cases are people without a positive diagnostic test who have COVID-19-like symptoms and had close contact with a laboratory confirmed case. Antibody test results are **not** included in our data. County of residence for cases may change as new information becomes available. If changes occur, we will update our counts accordingly.

²For additional details on individuals who have died from COVID-19 in Oregon, please refer to our [press releases](#).

³This includes cases who test negative and are not epi-linked to a confirmed case.

⁴Ever hospitalized, if available, as reported to OPERA. OPERA is the state of Oregon's electronic disease surveillance system for COVID-19. Cases are considered hospitalized if they were ever admitted to the hospital for inpatient care during the their COVID-19 illness. Cases who were examined in but not admitted to a hospital may be incorrectly classified as hospitalized until interview and medical record review are complete, leading to fluctuations in the number of hospitalized COVID-19 cases.

OHA provides these materials in multiple languages as a part of our [equity-centered response](#) to COVID-19. When there are changes, English versions may be updated before the translated versions. Please check the dates in these documents to make sure you have the most current version. If there are differences between English and another language, the English version is the official version.

□ Community Resources

Visit our Community Resources page to find information for individuals, families, people with disabilities, caretakers, workers, and more.

**Community Resources - Available in
multiple languages**

Safe and strong logo

As we face COVID-19 together, it's clear that we are strongest when we are in community, even from a distance. To help keep our communities safe and healthy, OHA's **Safe + Strong website** provides updates, resources and information in multiple languages. With the right information, we can get through this — together.

Safe + Strong Helpline: 1-800-923-HELP (4357)

□ School Reopening

Oregon public health officials have developed evidence-based metrics to help school boards and school districts make decisions about how they can safely reopen schools. OHA is working closely with the Oregon Department of Education on their **Ready Schools, Safe Learners** guidance for public and private K-12 schools for the 2020-21 school year.

Social Media Graphics: COVID-19 Vaccine

COVID-19 vaccines are being carefully evaluated in clinical trials. They will only be approved if they meet safety standards and make it much less likely you'll get COVID-19.

En español

People who treat or support people at-risk for COVID-19 (health care workers; staff and residents at nursing facilities) will have first access to vaccination.
