Three more counties submit equity plans

Clackamas, Lane and Tillamook Counties have all submitted comprehensive vaccination plans to OHA that address equity gaps. When these counties vaccinate 65% of their residents ages 16 and older, they will be eligible to move to Lower Risk.

Multnomah, Benton, Deschutes, Hood River, Lincoln and Washington counties remain the only counties that have moved to Lower Risk by successfully submitting equity plans and vaccinating 65% of their residents ages 16 and older.

For hospital capacity data: Please see our [daily COVID-19 update](#) and [Hospital Capacity dashboard](#).

For data on testing at the Oregon State Public Health Laboratory: Please see our [daily COVID-19 update](#).

¹This includes cases confirmed by diagnostic testing and presumptive cases. Presumptive cases are people without a positive diagnostic test who have COVID-19-like symptoms and had close contact with a laboratory confirmed case. Antibody test results are **not** included in our data. County of residence for cases may change as new information becomes available. If changes occur, we will update our counts accordingly.

²For additional details on individuals who have died from COVID-19 in Oregon, please refer to our [press releases](#).

³This includes cases who test negative and are not epi-linked to a confirmed case.

⁴Ever hospitalized, if available, as reported to OPERA. OPERA is the state of Oregon's electronic disease surveillance system for COVID-19. Cases are considered hospitalized if they were ever admitted to the hospital for inpatient care during their COVID-19 illness. Cases who were examined in but not admitted to a hospital may be incorrectly classified as hospitalized until interview and medical record review are complete, leading to fluctuations in the number of hospitalized COVID-19 cases.

□ Reopening Oregon

Beginning May 21, counties will have the ability to move to the Lower Risk Level on a weekly basis by:

- Administering first doses of vaccine to 65% of people ages 16 and older in their county.
- Submitting a comprehensive vaccination plan to OHA that addresses equity gaps.

Once 70% of people in Oregon ages 18 and older receive a first dose of a vaccine, most of the restrictions laid out in the framework will be lifted.

OHA provides these materials in multiple languages as a part of our [equity-centered response](#) to COVID-19. When there are changes, English versions may be updated before the translated versions. Please check the dates in these documents to make sure you have the most current version. If there are differences between English and another language, the English version is the official version.

□ Community Resources

Visit our Community Resources page to find a collection of vaccine communication resources, as well as more general information about COVID-19.

**Community Resources - Available in
multiple languages**

Safe and strong logo

As we face COVID-19 together, it's clear that we are strongest when we are in community, even from a distance. To help keep our communities safe and healthy, OHA's **Safe + Strong website** provides updates, resources and information in multiple languages. With the right information, we can get through this — together.

Safe + Strong Helpline: 1-800-923-HELP (4357)

□ School Reopening

Oregon public health officials have developed evidence-based metrics to help school boards and school districts make decisions about how they can safely reopen schools. OHA is working closely with the Oregon Department of Education on their **Ready Schools, Safe Learners** guidance for public and private K-12 schools for the 2020-21 school year.
