Introducción

Los datos del informe semanal de brotes de COVID-19 se concluirán todos los domingos a las 11 p. m., hora de verano del Pacífico, y el informe se publicará el miércoles. Los datos de esta semana están actualizados al domingo, 16 de mayo. Tenga en cuenta que los datos informados aquí se están actualizando continuamente. Para obtener información actualizada a diario, visite el sitio web sobre COVID-19 del Oregon Health Authority (OHA):

<https://govstatus.egov.com/OR-OHA-COVID-19>. Estos datos representan una visión global de los brotes de COVID-19. Los datos que se muestran en este informe provienen del sistema electrónico de vigilancia de la enfermedad para enfermedades de declaración obligatoria para Oregon.

Informe semanal de COVID-

Resumen de vigilancia semanal de Oregon
Nuevo coronavirus (COVID-19)

Informe de centros de atención, comunidades de adultos mayores y entornos de convivencia grupal

La OHA publica datos sobre casos y muertes en centros de atención, comunidades de adultos mayores y entornos de convivencia grupal que tienen tres o más casos confirmados de COVID-19 o una o más muertes (Tabla 1). Los establecimientos con brotes que se consideran resueltos se trasladan a la lista de brotes cerrados (Tabla 2). Un brote se considera resuelto si no hay casos nuevos identificados durante 28 días después de la aparición del último caso. Esta lista no incluye a los centros penitenciarios.

Además de los establecimientos mencionados, la OHA está al tanto de 245 entornos de congregación que tienen cinco o menos camas que tienen tres o más casos confirmados de COVID-19 o una o más muertes. Debido a que los hogares de acogida normalmente tienen relativamente menos residentes, la OHA sigue la práctica del Departamento de Servicios Humanos de Oregon de no nombrar a esos lugares para proteger la privacidad de los pacientes.

Hasta la fecha, ha habido una muerte por COVID-19 de un miembro del personal que trabajaba en un entorno de atención grupal. Para proteger la privacidad de los pacientes, la OHA no informa muertes de empleados por lugar de trabajo u otra información que pudiera identificarles. Se publicará información adicional en el futuro en informes semanales solo si la OHA determina que dicha información, además de otra información que publique e información publicada por otras agencias, como los Centros de Servicios de Medicare y Medicaid, no puede utilizarse para identificar a una persona. Hasta la fecha, ha habido 14,413 casos y 1,336 muertes asociadas a entornos de convivencia grupal.

Tabla 1. Brotes activos

Los brotes activos en centros de atención, comunidades de adultos mayores y entornos de convivencia grupal con tres o más casos confirmados de COVID-19 o una o más muertes relacionadas con COVID-19 (n=40)

| Nombre del establecimiento | Condado | Primeros casos informados | Casos totales* | Muertes totales* |
|---|------------|---------------------------|----------------|------------------|
| Laurel Parc at Bethany | Washington | 2021-02-09 | 14 | 1 |
| Royale Gardens Health & Rehabilitation Center | Josephine | 2021-03-01 | 13 | 1 |

*El recuento de casos y muertes incluye todos los casos y las muertes asociados con el brote (p. ej., personal, residentes, contactos cercanos)

Informe de brotes en el lugar de trabajo

La OHA publica datos de casos de brotes en lugares de trabajo. Dado un grupo de casos en tiempo y espacio, dentro de períodos de incubación posibles para el patógeno, los epidemiólogos de la OHA considerarán que los casos están relacionados (por ej., como parte de un brote en el lugar de trabajo) a menos que se identifique una fuente de contagio alternativa más probable. Cualquier sospecha de brote en el lugar de trabajo debe informarse a la

Los datos son provisorios y están sujetos a cambio

Informe semanal de COVID-

Resumen de vigilancia semanal de Oregon
Nuevo coronavirus (COVID-19)

autoridad de salud pública local (consulte OAR 333-018-015). El departamento de salud local y los socios tribales investigan para identificar brotes en lugares de trabajo. Esta lista de brotes será actualizada a medida que continúen las investigaciones y podamos conocer más vínculos epidemiológicos entre casos. Es posible que esta lista no refleje todos los brotes en lugares de trabajo de Oregon.

Para proteger la privacidad, la OHA solo informa brotes en lugares de trabajo con cinco o más casos y solo en lugares de trabajo con al menos 30 trabajadores. Si más del 50 % de los trabajadores son casos de COVID-19, no se informarán los números de casos específicos. El recuento de casos incluye a todas las personas vinculadas al brote, que pueden ser miembros de la familia y otros contactos cercanos. La lista a continuación incluye brotes activos en lugares de trabajo (Tabla 3), esto significa que hubo un caso dentro de los últimos 28 días. Los brotes resueltos se colocan en una tabla separada de brotes resueltos (Tabla 4). Los brotes se eliminan de la lista de brotes cerrados luego de transcurridos 56 días.

La presencia de centros penitenciarios y lugares de trabajo agrícolas y de envasado de comidas en esta lista destaca los desafíos de controlar el COVID-19 en entornos donde las personas deben trabajar o viven en proximidad. Las personas de color tienen una fuerte presencia en entornos penitenciarios y agrícolas, por lo que contribuyen a tasas más altas de COVID-19 observadas en estos grupos. La OHA publica estos datos en respuesta a la solicitud del público, pero con cierta preocupación de que los trabajadores o miembros del personal de estos lugares de trabajo puedan estar sujetos a discriminación.

Los funcionarios de salud pública estatales y locales trabajan intensamente con el personal en los lugares de trabajo donde se identifican brotes para aislar a los trabajadores enfermos, hacerles pruebas y colocar en cuarentena a las personas expuestas e implementar cambios en el lugar de trabajo para reducir el riesgo de transmisión. Salvo que se estipule lo contrario, los funcionarios de salud pública han determinado que estos lugares de trabajo, sus trabajadores y sus productos no plantean riesgo significativo para el público. Los trabajadores de un negocio con un brote en el lugar de trabajo nunca deben estar sujetos a discriminación o excluidos de frecuentar otros negocios. De hecho, discriminar a los trabajadores o evitar los productos puede poner en peligro la viabilidad económica de comercios locales esenciales.

Los empleadores pueden apoyar a sus trabajadores con políticas que garanticen que todos los trabajadores enfermos no estén en el lugar de trabajo y no sean penalizados por tomar una licencia por enfermedad. Los empleadores deben garantizar que los trabajadores conozcan y entiendan estas políticas.

Hubo 113 muertes y 21,769 casos asociados a todos los brotes en lugares de trabajo informados hasta la fecha. Para proteger la privacidad de los pacientes, la OHA no informa las

Informe de brotes de cuidado infantil

La OHA publica datos sobre casos en entornos de cuidado infantil. Dado un grupo de casos en tiempo y espacio, dentro de períodos de incubación posibles para el patógeno, los epidemiólogos de la OHA considerarán que los casos están relacionados (por ej., como parte de un brote de cuidado infantil) a menos que se identifique una fuente de contagio alternativa más probable. Cualquier supuesto brote en un entorno de cuidado infantil debe informarse a la autoridad de salud pública local (consulte OAR 333-018-015). El departamento de salud local y los socios tribales investigan para identificar brotes en estos entornos. Esta lista de brotes será actualizada a medida que continúen las investigaciones y podamos conocer más vínculos epidemiológicos entre casos. Es posible que esta lista no refleje todos los brotes en entornos de cuidado infantil de Oregon.

A partir del 23 de septiembre de 2020, la OHA informará brotes en entornos de cuidado infantil con dos o más casos y con capacidad para más de 16 estudiantes. Anteriormente, la OHA informaba brotes en entornos de cuidado infantil con cinco o más casos y con al menos 30 estudiantes. El recuento de casos incluye a todas las personas vinculadas al brote, que pueden ser miembros de la familia y otros contactos cercanos. La lista a continuación incluye brotes activos en entornos de cuidado infantil (Tabla 5), esto significa que hubo un caso dentro de los últimos 28 días. Los brotes resueltos se colocan en una tabla separada de brotes

Nuevo coronavirus (COVID-19)

resueltos (Tabla 6). Los brotes se eliminarán de la lista de brotes resueltos luego de transcurridos 56 días. Además de los 19 brotes indicados a continuación, hay 7 brotes en un centro de cuidado infantil que tiene capacidad para 16 niños o menos.

Informe semanal de COVID-

Resumen de vigilancia semanal de Oregon
Nuevo coronavirus (COVID-19)

Informe en jardines de infantes y hasta 12.º grado

La OHA publica datos sobre casos de COVID-19 asociados con escuelas que ofrecen instrucción en persona. Esto se realiza para informar al público de la potencial exposición al COVID-19 y para proporcionar transparencia con respecto al COVID-19 en las escuelas. Una escuela se define como cualquier lugar de aprendizaje para estudiantes desde el jardín de infantes hasta el grado doce, o un subgrupo, con al menos 30 estudiantes inscritos. Esto incluye, entre otros, escuelas públicas, escuelas privadas, escuelas parroquiales y comunitarias. Se define como personal a cualquier persona que trabaje a tiempo completo o tiempo parcial en la escuela, independientemente de su puesto. Se define como voluntario a cualquier persona que se desempeñe como voluntario en el sitio. Los casos se informan si las personas trabajaron o asistieron a la escuela (ya sea por clases u otras actividades, como la práctica de un deporte) durante su exposición o período de infección.

La Tabla 7 a continuación incluye todas las escuelas que tienen 1 o más casos de COVID-19 en estudiantes o personal/voluntarios, en las que el inicio más reciente ocurrió dentro de los últimos 28 días. Las escuelas que tienen 1 o más casos de COVID-19 en estudiantes o personal/voluntarios en las que el inicio más reciente ocurrió más de 28 días atrás se colocarán en una tabla separada (Tabla 8).

Tabla 7. Casos recientes

Escuelas con casos recientes de COVID-19 (n=389)
